FAIRLEY TALKS

Indorses Gazette's Policy and Exposes Stevenson-Stevens Plot.

PATTERSON IN DEAL

SO-CALLED REFORMERS AND DEMOCRATS WORKING HAND IN HAND. THINKS VIVIAN WILL SUCCEED HIM.

Chairman D. B. Fairley of the Republican state committee, whose address to the Republican voters of the state, published yesterday morning, has created widespread interest in political circles, was last evening shown a copy of The Sunday Gazette containing an editorial pointing out the only policy to be pursued in order to insure the Republican success at the election in November this fall. Mr. Farley said:

"The principles as set forth in The Gazette editorial have my unqualified indorsement, and I feel safely say that they represent the sentiments of every conscientious leader of the party throughout the state. As The Gazette says, the time has certainly arrived when the party in the state and nation must purge itself for good of the malign influences which have dogged it in its leaders and its councils. The issue is exactly as it is stated. Men must be selected as the candidates of the party against whose character, both public and private, not the slightest aspersion can be cast—men who are untrammeled and who will remain so.

"Certain it is that corporate influences have been gradually creeping into the party councils, and have too long possessed an undue power in the naming of the party candidates. All over the country this great demand for leaders of absolutely unsullied character has been daily increasing, and the conditions are exactly the same at the present time in Colorado.

"A campaign such as is mapped out by The Gazette in its editorial this morning is the only one that can bring success to the party this fall, and it is exactly the one that will be carried on. The party will go before the voters of the state with a list of candidates who must and will command the respect of all classes of citizens, and the main plank in its platform will be 'A square deal for all.'"

When Chairman Fairley was asked to explain the reason for the issuance recently of a long address to the Republican voters of Colorado over the signatures of several men who have been more or less prominent in the affairs of the party in various parts of the state, chief among them being A. M. Stevenson of Denver and I. N. Stevens of Pueblo, he replied:

"The Stevenson-Stevens faction, so-called, is at the bottom of it all. It is simply a plot on the part of the conspirators in question, and a few disgruntled and disappointed professional politicians to make a last effort to stem the tide of wrath of the rank and file of the party in which their questionable methods, and still more questionable loyalty to the real principles of the party, is gradually engulfing them.

The plot which they are endeavoring to arrange is far deeper than appears on the surface. The arrangement does not end with a combination of Stevens and Stevenson. Add to these two names the name of Patterson, and the true inwardness of their nicely-laid scheme becomes apparent. I do not hesitate to say that it is simply an attempt to insure the return of Thomas M. Patterson to the United States senate this year, and the election of either Stevenson or Stevens as the successor of Senator Teller two years hence.

"The plan is one to hoodwink the voters of the state into the belief that the bogus movement for reform started by them is a genuine attempt to purge the party of its objectionable factors. Their hope further lies in the agitation which will be stirred up through the Democratic press of the state in its wild cries for reform, anywhere and everywhere. By this means they hope to turn enough votes in the direction of the candidates to be agreed on between Patterson and themselves to secure a majority in the next legislature which will carry out their scheme.

"But their plans will not be successful. With the combined forces of the two parties to the arrangement, the next legislature of Colorado will be Republican by a safe majority. Present indications point to at least 56 Republicans in the house of representatives and 24 in the senate. I place the Republican plurality for the next governor at 15,000.

"In Denver county, where so much hue and cry was raised by the Democratic press in the recent election, we will have a majority of from 5,000 to 6,000. The most desperate attempt was made by the papers of the opposition during the recent election in Denver to make the tramway fight a party issue. No such issue was, or could be, made, and the voters throughout the state thoroughly understand this fact. This attempt will have absolutely no effect on the coming state election.

"The industrial peace and prosperity which everywhere prevail throughout the state will contribute very largely to Republican success in the coming election. From every county come reports of harmony within the ranks of the party, excepting, of course, the few minor dissensions which are the result of the thinly-disguised attempt to betray the voters into following the leadership of men whose motive is to enhance their own private interests and satisfy their political ambitions.

"The time has come for the real leaders of the party in the state to

(Continued on Page Two.)

HAAKON GIVES A RECEPTION

PLANS ALTERED, NORWEGIAN-AMERICAN DELEGATIONS RECEIVED YESTERDAY.

KING EXPRESSES GRATIFICATION FOR KINDLY SENTIMENT OF AMERICANS. LEADS CHEERS.

TRONDHJEM, Norway, June 24.—The plans for receiving the Norwegian-American delegates have been changed, King Haakon and Queen Maud receiving the several delegations combined at 2 o'clock this afternoon. The entire court was present. The pilgrims from the United States spent twenty-five minutes with the king and queen.

Dr. Dyer of Chicago first made an address congratulating King Haakon on his accession to the throne and expressing assurance of the affection of Norwegians in America for the king. He then handed the king the engrossed address. The king then thanked the delegations saying he was fully aware of the value to Norway of the moral support of Norwegians in America, and that it helped him when entering upon the duties of his office to know that he had their friendship and moral support. He also expressed his gratification for the kindly sentiment of Americans.

F. G. Gade, Norway's vice consul at Chicago, then presented King Haakon with a portfolio, saying that this greeting also was from American musicians, artists and poets there. He reminded the king that the portfolio contained a poem written by the Rev. Mr. Hoftun and set to music by Alfred Paulson, which was sung at the demonstration last night.

Mr. Gade then presented Odin Renning of Milwaukee, composer of the coronation hymn, which also was embodied in the portfolio. King Haakon shook hands with Mr. Renning and thanked him for his work.

In reply to Mr. Gade, the king expressed his warmest thanks for the portfolio and charged him to deliver a message of thanks to all who assisted in preparing it. The queen and king then shook hands with the entire party and thanked the members for making the long journey from the United States to assist in the coronation.

Thousands of school children paraded before the palace at noon today and were reviewed by King Haakon, Queen Maud and Crown Prince Olaf. King Haakon in addressing the children expressed the appreciation of himself, his wife and his son and commended his son to them. He trusted that he and the people always would enjoy mutual confidence and work together in the future for the good of Norway. He led the children in cheering for Norway, and asked them to sing the nation anthem, which he also led.

Admiral Bayle and the French embassy to the coronation gave a reception this afternoon on board the cruiser Aube. All the embassies, the members of the cabinet and officers of the international fleet and many persons of prominence were present. Premier Michelsen proposed a toast to France which was drunk enthusiastically and Admiral Bayle thanked the premier on behalf of the French people.

A state dinner and ball were given tonight by the municipality of Trondhjem in honor of the king and queen and foreign princes. There were present members of the diplomatic corps and a brilliant assembly of nine hundred persons. Charles H. Graves, the special American ambassador, had a prominent place at the dinner next to the princess.

HONORS VISITORS

Longworths Are Entertained by Emperor William on the Hamburg.

AMERICAN EVENING

EMPEROR JOLLY AND COMPLIMENTARY TO AMERICA AND AMERICANS. PRINCESS EITEL PARTICIPATES.

KIEL, June 24.—Emperor William, when he was certain of the day on which Mr. and Mrs. Longworth would arrive here, telegraphed to Princess Eitel Frederick asking if she could not come to Kiel at once so Mrs. Longworth could be entertained aboard the Hamburg, the emperor's yacht. It is the emperor's rule never to invite a woman on board his vessel unless the empress or one of the imperial princesses is present.

Empress Augusta Victoria, it is understood, desires to remain near the crown princess. Princess Henry of Prussia is taking a holiday in Bavaria, and Princess Eitel Frederick, who is also a bride, had arranged to go on a cruise in the Hamburg with the imperial yacht after the regatta, but upon receiving the emperor's telegram she came from Potsdam immediately, arriving here Saturday evening.

Mr. and Mrs. Longworth were invited to dine with the emperor tonight. It was quite an American evening. Besides Mr. and Mrs. Longworth, Allison, Howard and George Armour and Mr. and Mrs. Jordan Mott were present. Princess Eitel was amiable and Emperor William jolly and complimentary to America and the Americans.

After the dinner the emperor and Princess Eitel, with their guests and the emperor's staff, went on the quarter deck of the Hamburg to witness the illuminations. The club house, the hotel and other buildings were outlined in electric lights and the 16 battleships, 10 cruisers, 12 merchant ships and a hundred yachts in the harbor were strung with incandescent globes, while many searchlights playing about made a gorgeous scene. Just above the groom in the hotel occupied by Mr. and Mrs. Longworth were the stars and stripes in colored lights. A great assemblage from Kiel and neighboring towns crowded the water front to witness the illumination. Mr. and Mrs. Longworth were detained by Emperor William until after 11 o'clock. The illumination ended with every warship sending up blazing rockets.

The large class of yachts raced again today. Emperor William took with him on board the Meteor, Prince Adelbert and his three younger brothers and Commander W. L. Howard, Commander F. W. Dumas and Captain Jonquires, naval attaches respectively of the United States, Great Britain and France. He served all of them at lunch with his own hand, requiring the princes to come to him with their plates. As the breeze was light the emperor said it was not worth while sailing over the course and gave up the race. The yacht Hamburg did the nineteen knots under five hours, winning the race.

In the next class, G. W. Watjen's Navajo covered the distance in four hours, 45 minutes, and beat the Comet. Mr. and Mrs. Longworth followed the races on Allison Armour's steam yacht Utowana.

PINNED DOWN; WOMAN BURNS

HORRIBLE DEATH OF LOS ANGELES WOMAN IN AN AUTOMOBILE ACCIDENT.

PUEBLO WOMAN, IN MACHINE THAT OVERTURNED WHILE GOING 60 MILES AN HOUR SLIGHTLY HURT.

LOS ANGELES, June [illegible] by the overturning of an automobile on Colorado street in Pasadena at [illegible] this morning, while it was being driven sixty miles an hour, and the subsequent explosion of the engine and burning of the machine. Mrs. J. J. Comfort, 35 years of age, wife of James [illegible] dent, a local business man, was pinned down and roasted to death and Jack Henderson of this city, the driver, was so badly burned that he probably will die.

Mrs. John Norris of Pueblo, Colo., was also slightly burned and [illegible] Mr. Connell, the husband of the [illegible] woman, and C. White, who were [illegible] the automobile, escaped practically uninjured.

PUEBLO, June 24.—Mrs. John [illegible] is the wife of a retired furniture dealer of this city. She went to Los Angeles last January on a visit. Her husband is ill at their home in this city and has not been informed of the injuries to his wife.

MANY LIVES ARE LOST IN WATERS

EXPLOSION OF ALCOHOL LAMP CAUSES TWO LITTLE GIRLS TO JUMP OVERBOARD. CLERK DROWNS.

RED WING, Minn., June 24.—During a panic caused by the explosion of an alcohol lamp on board a launch conveying a picnic party up the Mississippi this afternoon, Edith and Grace Nettum, sisters, aged 12 and 14 years, fell overboard and were drowned.

WASHINGTON, June 24.—Edward R. Saalbach and his wife, while canoeing in the Potomac river above the aqueduct bridge today, were drowned. The boat upset. Saalbach was a clerk in the war department and was about 45 years old. He was appointed from California.

NEWPORT, Vt., June 24.—Four persons were drowned in Lake Memphramagog late today by the overturning of a canoe.

REDBANK, N. J., June 24.—One of the boats which overturned and sank in Raritan bay Saturday, when two squalls met in the bay and wrought havoc to small craft, was the two-masted schooner Emma Hendrix, from Perthamboy for Redbank, with a load of coal. Captain Morris Brown and his son, William, 12 years old, and one of the crew were drowned.

Theodore Wilson and his helper were drowned by the capsizing of the schooner Buenavista.

RECTOR DIES SUDDENLY.

CEDAR RAPIDS, Ia., June 24.—Thomas F. Gunn rector of the Church of the Immaculate Conception for forty years, died suddenly today from a stroke of apoplexy.

RESUME OF WORK

Fifty-Ninth Congress Has Enacted Many Important Measures.

EXPENSE INCREASES

TOTAL PERMANENT ANNUAL APPROPRIATION $140,000,000. OVER TWENTY THOUSAND BILLS INTRODUCED.

WASHINGTON, June 24.—Important measures extending federal regulation and control have been enacted at the session of the fifty-ninth congress. The railroad rate and the meat inspection bills will soon be the laws and before adjournment both houses will have passed pure food bills which in essentials are based on the same principle of federal control. It is the present intention to try to adjust these differences before adjournment.

There has been a marked division on party lines in effecting the above results, the differences being only as to ways and means, rather than as to policy.

Besides branching off into this new field of legislative endeavor, the present session has made itself important in other ways. It has added one and perhaps two new states to the union and by so doing has disposed of four territories.

Great results to the people are expected from the removal of the tax on denaturized alcohol and if predictions are fulfilled, heat, light and power are to be supplied by alcohol made from the cereals of the country, from sugar beets and sugar cane, from fruits and other vegetables.

By a left turn of the legislative point of view, the questions that have perplexed congress for some time regarding the Panama canal have been settled. The president may dig a lock canal as fast as he pleases. A joint resolution was agreed to requiring canal supplies to be of American manufacture. Congress has not dealt with the foreign situation to any extent.

An act making a much needed reorganization of the consular service was passed.

Nothing was done in the Santo Domingo controversy and the legislation affecting our colonial possessions was meager and unimportant, although tariff revision for the Philippines received the attention and approval of the house and an act was passed revising the tariff collected by the Philippine government. A coinage act for the islands also was passed.

But congress talked about our own tariff law. It broke the record for words. Thousands and hundreds of thousands more than have been uttered at any other session were compiled in the Congressional Record. Not only on the floors of the two houses has the word record been heavy, but the publications resulting from committee sessions are larger and more numerous than at any previous session.

A larger number of bills were introduced in the two houses. The calendar records that the number has reached nearly 20,500—more than were introduced during the entire three sessions of the last congress.

Before discussing the number of acts passed, it is interesting to note that with all the strenuous exertions of an

(Continued on Page Three.)

MAKE CHANGE AT BIALYSTOK

RUSSIAN OFFICIAL, LAX IN RESTORING ORDER, HAS BEEN REMOVED.

CENTRIST PARTY JOINS IN DEMANDING RESIGNATION OF CABINET. PREMIER NOT TO RESIGN SOON.

ST. PETERSBURG, June 24.—The results of the parliamentary congression and Minister of the Interior Stolypin's representative M. Frish, on conditions at Bialystok have borne prompt fruit. General Bader, who as governor general and commandant of the troops was accused of laxity in restoring order has been supplanted by General Bogdefsky. The resignation of Governor Kisler of Grodno has been accepted and the stated promotion of Prefect Shermatieff is said to have been abandoned.

The conservative Centrist party in the council of the empire organized recently with the purpose of attempting to supplant the Goremykin ministry by a cabinet chosen from the Octoberist, the Democratic Reform and the Constitutional Democratic parties, have joined in the chorus demanding the resignation of the cabinet. W. Yermoloff, former minister of agriculture, gave out an interview today saying that it is evident if the actual ministry can do nothing for the pacification of the country it should be replaced by a cabinet in which the more moderate elements of parliament are given places. The situation, M. Yermoloff added, is so tense that any attempt of the administration to array itself in open opposition to parliament can result only in calamity and disaster.

M. Yermoloff, who is a shrewd politician, has now nothing but honeyed words for parliament, which, though containing revolutionary elements, he says, is the true reflection of the sentiment of the country, and evidently he is laying wires and working for action between the majorities of the two houses of parliament under a responsible ministry. He is thought to have his eye on his old portfolio in such a cabinet.

Though M. Yermoloff and his party, in the program published today adhere to nominal opposition to the general principle of the expropriation, they concede the necessity of satisfying the land hunger of the peasantry and adopt the idea of the creation of local commissions for the solution of the problem in accordance with local needs, thereby indorsing the principle on which all factions in the lower house—the Constitutional Democrats, the Group of Toil, Poles and the conservatives are tending to concentrate.

With regard to the Jews, M. Yermoloff believes the question can be settled by the abolishment of the pale and the granting of equal rights to Jews, but he favors certain restrictions in the purchase of land by Jews, holding that it is necessary to regard the sentiment of the Russian masses which will be alarmed unless this is done.

M. Yermoloff laughed at reports of the dispersal of parliament, which he says would be not only fatuous, but fatal to the court factions. He expressed confidence that the government would soon be striving to effect an understanding with parliament.

Should the sentiment of the Centrist party be formally accepted by the council of the empire it would be impossible for the emperor to ignore it.

There are indications that Premier Goremykin is wearying of his position, but the retirement of the cabinet is apparently not a matter of the immediate future.

END OF SESSION

Final Adjournment of Congress Is Expected This Week, Say Leaders.

SESSIONS AT NIGHT

SENATOR HALE SAYS THE RATE BILL IS ONLY MEASURE THAT CAN CAUSE DELAY. THE WEEK'S FORECAST.

Senator Hale, who, in the absence of Senator Allison, is acting as chairman of the senate committee on appropriations, expresses confidence in the final adjournment of congress before the close of the present week. His program will be to urge the consideration of appropriations bills and conference reports to the exclusion of practically all other matters and with the supply bills finally passed, there is no measure unless it be the railroad rate bill that can and congress together. The Maine senator is of the opinion that the world can all be concluded by Friday, but says that in no event will it go beyond Saturday.

The only two appropriation bills which have not passed the senate are the general deficiency bill and the omnibus public building bill, but the sundry civil, the naval and the agricultural bills are still in conference. Of these none is expected to require much time except the agricultural bill, to which is attached the meat inspection provision, and it is generally conceded that in case of necessity that measure could be disposed of in short order, as it has already been sufficiently discussed to satisfy most senators. It is not anticipated that the deficiency bill will arouse debate, but there will be a general scramble to secure recognition on the building bill. For this reason it will be held in reserve until the last minute.

As to the rate bill no one doubts that it will get through, but no one is satisfied as to just how the commodity amendment prohibiting common carriers from transporting their own products will come out. If Senator Tillman adheres to his determination to insist upon the retention of the words "common carriers," instead of substituting the word "railroads," as is now proposed, there will be inevitable delay. There also will be further discussion of the resolution calling on the attorney general for a statement of the suits under the antitrust laws, and Senator LaFollette has given notice of his intention to prosecute his effort to secure the adoption of his resolution providing for the withdrawal of coal and oil lands from entry. Night sessions are probable toward the last of the week.

Every effort is to be made to finish the business of the session in the house this week. Contrary to the usual practice the adjournment resolution is not to be introduced until the legislative business is in such shape that it cannot be blocked by the single-handed opposition of any member of either body and particularly the senate.

The last of the appropriation bills, the general deficiency, will be reported to the house today (Monday) and passed. This bill carries $10,245,569, and before it becomes a law this amount will be increased very largely, as it is planned to add to it in conference a certain percentage of the appropriations to be authorized in the omnibus public building bill. This addition by the conferees will be authorized by a joint resolution. After the deficiency bill is out of the way, the immigration bill is to be considered under a special rule which will limit the discussion to a few hours. Strong endeavors are to be made to amend this bill regarding the educational test and the increased head tax. The public building bill follows the immigration bill. Conference reports on pending appropriation bills and other measures, including pure food bills, will be brought in at all times and considered without delay.

The requirements of the work as present will make it possible, unless some unforeseen delay occurs, to finish by Friday.

The final decision to complete the passage of the pure food bill, by reconciling the senate and house bills, which are radically different, presents one possibility of delay which cannot well be calculated, but the leaders say this measure must become a law before adjournment.

On Thursday the Yale-Harvard regatta will be held for the twenty-eighth time on the Thames river at New London, Conn. The spectacular race between the 'varsity eights last year, the unbounded confidence of Harvard men in Coach Wray and the prospects of a victory for the Crimson have stimulated interest this year and race day scenes in the old shipping town are sure to be lively.

In the opinion of close observers, the Yale crew this year is not the physical equal of other crews that have won for the Blue. Harvard, on the other hand, has an eight considered as fast and powerful as any sent from Cambridge to meet Yale. Its row of 20:10 for four miles is claimed by rowing authorities, after discounting unfavorable wind and tide, to be the fastest trial on the river in twenty years.

The Royal Henley regatta, which will be held on the River Thames July 3, 4 and 5, promises to be a series of close and exciting contests, crews belonging to the recognized governing bodies of rowing in France, Germany, Holland, Belgium and Canada having been entered to compete with the crews of Cambridge and Oxford universities.

The United States has only one entry in the series, that of the Diamond Sculls, in which William B. Egan of the Undine Barge club of Philadelphia is entered. Egan, however, is being considerably handicapped by having to practice in a strange boat. His own shell was [illegible]

ONLY PROVIDENCE SAVED THIS MAN

KANSAS FARMER FALLS ASLEEP AND HORSE TAKES TO RAILROAD TRACK IN FRONT OF TRAIN.

WICHITA, June 24.—Orpha Benner, who lives eight miles south of this city, had a little experience that he will likely remember a good many years. He had driven into the city and stayed till a late hour, when he started home. Soon after starting he fell asleep and did not awaken until he found himself and the buggy turning somersaults down an incline and heard a train rushing by at a speed of forty miles an hour. He was not hurt, but he was so bewildered that he was unable for a time to make out where he was. Finally he discovered that when the horse reached the Rock Island track, instead of crossing it he had turned down the track and had followed the track more than a mile, crossing two cattle guards and a switch. Just before it reached a small railroad bridge a Rock Island northbound train came along and frightened it until it turned abruptly and ran down the steep grade at the side of the track. The animal became detached from the buggy and ran about half a mile when it again took to the track and was run down and killed by a southbound train a short time after. Benner was not hurt.

ALLEGED MURDERESS TO BE RELEASED UNDER BOND

SIOUX FALLS, S. D., June 24.—At midnight last night Circuit Judge Jones approved the $15,000 bond for the release of Mrs. Kauffmann, accused of the murder of Angee Poireis, her maid. It was decided, however, that the woman should be kept in custody until Monday morning, when she will be taken to her home.

The excited condition of the public mind has somewhat subsided but the police guard around her residence will be maintained for the present.

FALLS IN A SHALLOW STREAM AND DROWNS

WALDEN, Colo., June 24.—W. R. Hall, aged 42 years, a well-known resident of Pearl, was found drowned in a shallow stream ten miles west of Walden by C. C. Filniau, a merchant of this place. There were no marks of violence on the body and the supposition is that Hall was either seized with a fit or stricken with apoplexy as he was crossing the stream and fell into the water face downward. Hall's brother, Steven Hall, also a resident of Pearl, was notified. The body was brought to Walden by Justice of the Peace A. E. Butler and the coronor of Fort Collins was notified.

JAPS WILLING TO FULFILL PROMISE

CHINESE COMMERCIAL MEN HOPING FOR SETTLEMENT OF MANCHURIAN TRADE WARS MILITARY SITUATION.

PEKIN, June 24.—The leading commercial men are now taking a more hopeful view of the prospects for securing a share of the trade of Manchuria, and it appears that the Japanese government appears willing to fulfill its promise of an open door in the country at least. It has shown a better disposition than the military authorities.

There has been friction between the civil and military authorities concerning the policy to be pursued as to foreign trade privileges in Manchuria. The civil authorities are more liberal and it is believed that when the military administration is withdrawn, foreigners will be given greater freedom.

The newspapers urge the establishment of Chinese customs at Dalny to collect duties on goods destined for the interior, on the same basis as the arrangement with Germany at Kiaochow.

WOOD ALCOHOL IN DEADLY COCKTAIL

A BROOKLYN SCHOOL TEACHER AND HER COUSIN ARE DEAD AND ANOTHER GIRL IS SERIOUSLY ILL.

NEW YORK, June 24.—Two persons, one a pretty and popular young woman school teacher, are dead and at least one other person, a young girl, is ill in Brooklyn as a result of drinking cocktails. The drinks are believed to have contained wood alcohol.

The young woman who is dead is Mrs. Josie Bouquet, 24 years old, a teacher in public school No. 125. The other victim is Joseph Husch, 17 years old, a cousin of Mrs. Bouquet.

While half a dozen young people, including Mrs. Bouquet and Husch, were on the veranda, Husch went to a saloon and got a pitcher of cocktails. Everybody had a drink. After that several more trips were made for the cocktails. Today Mrs. Bouquet complained of illness.

She rapidly became worse, and at midnight became totally blind. This is said to be a sure resultant of wood alcohol. Her husband learning of his wife's condition, rushed for a physician. The young woman died before he returned.

Husch went to work as usual Tuesday but soon fell ill. He became blind and then unconscious, dying early this afternoon.

AMERICAN AERONAUT HURT.

PAORIA, Ill., June 24.—Miss Lotta Allsworth, an amateur balloonist, fell a hundred feet from her parachute this afternoon, receiving probably fatal injuries.

FOR REPAIRING SECRETS.

[illegible], June 24.—Two workmen employed in the Krupp works have been arrested, charged with [illegible] by sale

WOOED AND WED, ALL IN FIFTEEN MINUTES

NYACK, N. Y., June 24.—Joking about love, George E. Weyant and Miss Sadie Louw, both of Newburg, became imbued with the divine passion, and the young man proposed, was accepted and married within the space of fifteen minutes.

The couple were visiting the bride's sister, Mrs. Harry N. Cooper, in Haverstraw. During the afternoon there was considerable joking about love and matrimony. Finally Mr. Cooper slipped out of the house unobserved and returned with the Rev. William Reibefer. Weyant promptly pleaded for the hand of Miss Louw. A few moments later the company hurried to the parsonage and the marriage took place.

DOUBLE TRAGEDY IN NEW JERSEY

WOMAN GIRL FRIEND TO GO WITH HER HOME, HE SUMMONS HER HOME, KILLS HER AND SUICIDES.

NEW YORK, June 24.—The village of Amity, near Morristown, N. J., was the scene of a double tragedy today. Freeman Longcore sought to persuade Rose Colly to go away with him. She refused and Longcore subsequently set fire to the house in which she lived. The girl was trying to save some of her effects when Longcore killed her. Neighbors arrived on the scene just after the shooting. Longcore fled with the crowd in pursuit and being cornered killed himself.

GOVERNOR APPOINTED.

COPENHAGEN, June 24.—Mylius Erichsen's expedition which will attempt to explore the northwestern coast of Greenland, sailed today. The expedition expects to return in the autumn of 1[illegible]

GETHRO SWEARS DIRE VENGEANCE

CONFESSES HIS OWN GUILT AND PROMISES REVELATIONS REGARDING BRIBE TAKING IN LEGISLATURE.

BOSTON, June 24.—In a statement issued by Frank J. Gethro, who on Thursday was expelled from the Massachusetts house of representatives after having been found guilty of attempting to bribe fellow legislators, a confession of guilt is made. Gethro says to avenge his expulsion he will expose every member of the house who has been connected with any bribery proceedings.

Gethro states that several members of the legislature have secured bribes and that his revelations will make the giving or taking of bribes impossible at the state house in the future.

Referring to the antibucketshop bill, the measure in which he was personally interested, Gethro says:

"I agreed to buy Republican votes, got the contract and bought the votes. To force me to raise the offers, some of those interested began to talk. The matter got to the grand jury and I was indicted. Then the investigating committee was appointed. I was told that if I stood firm the committee would see me through unharmed.

"When, however, I sat on the floor on Thursday afternoon and saw myself held up to scorn not by that handful of men whose names are above reproach, but by a mob of dastardly hypocrites who had been offered and taken ten bribes to my one, I swore then and there to avenge my expulsion.

"In my degradation, I am buoyed by the knowledge that I shall have done the state some good if in my ruin the structure of infamy reared by the six men shall fall."

DEATH OF ARMY OFFICER.

MANILA, June 24.—Colonel James R. Egan of the 8th U. S. infantry was found dead in bed today. Death was caused by [illegible]

break apart from any man or set of men who will not be absolutely loyal to the true principles of the party and those principles are all embodied in that one sentence: A square deal for [illegible]. The man [illegible] and the millions must be treated exactly alike, and the sooner the party realizes that both have certain rights which must be respected, that every law and enforcement of law must contain no special privilege for either, and lives up to [illegible] the more fittingly [illegible]

Looks Like Vivian

Mr. Fairley last evening reiterated [illegible] of refusing again to be [illegible] chairman [illegible] state [illegible] He said the successor would probably be John F. Vivian, at present secretary of the state committee. Warren Haggott [illegible] Clear Creek county would [illegible] this office with Mr. Vivian.

In Mr. Fairley's opinion the most [illegible] the present [illegible] Jesse F. McDonald, who will undoubtedly seek the nomination. If Governor McDonald should decline to stand, the man most [illegible] convention would be former P. B. Stewart of Colorado Springs or Murdo Mackenzie of Trinidad [illegible] W. S. [illegible] of Rocky Ford [illegible] of Leadville, and [illegible] Kent of La [illegible] present state auditor.

According to Chairman Fairley there will be few changes in the make up of the next state committee. There were [illegible] out of a committee membership of 118 that would stand as a unit on all questions affecting the welfare of the party.

It was expected, Mr. Fairley stated, that the Democratic nominee would be either Alva Adams or Judge Ben Lindsey. It was not at all improbable that both of these men might be candidates. Adams is the regular Democratic nominee and Lindsey [illegible] of the [illegible] reform movement.

FORTY MEN HAVE NARROW ESCAPE

THIRTY-FIVE STICKS OF DYNAMITE PLACED AT DOOR OF HOUSE IN WHICH THEY WERE SLEEPING

HELENA, Mont., June 24.—Forty men had a miraculous escape from being blown [illegible] last night when the powder house of [illegible] Harris lime quarry, ten miles from here, was exploded by unknown persons.

The men were asleep in a brick house near by and the logs from the powderhouse were blown over the brick house. Against the door of the brick house was [illegible] a sack containing 35 sticks of dynamite to which a fuse had been attached.

This is said to be the second mysterious [illegible] within the past few weeks. [illegible] night [illegible] telegraph operations [illegible]

RIOTS FOLLOW STRIKE OF STREET CAR MEN

ALLENTOWN, Pa., June 24.—A strike of motormen and conductors of the Lehigh Valley Transit company today led to disturbances here tonight that ended in the mayor ordering out the entire police force.

Tonight a crowd of 4,000 persons gathered at the transfer point, Sixth and Hamilton streets, and began interfering with the running of cars. Trolley ropes were cut, cars were stalled and the crews greeted with jeers. Along the lines crowds gathered, hooting, and in a few instances stones were thrown.

Strikers [illegible] the reinstatement of [illegible] men discharged for belonging to the organization.

ADDITIONAL WEIGHTS ON LOUISVILLE "LID."

LOUISVILLE, Ky., June 24.—Additional weights were piled on the Louisville lid today as the result of a policy inaugurated by Magistrate Frank J. Hoffman. Half a dozen cigar stands, soda fountains and other business places were kept open with the object of inviting test arrests. The remainder of the shops that could not [illegible] strict interpretation of the law be classed as works of necessity or charity were closed, even the drug stores in a majority of cases shutting their doors. No arrests were made during the day, constables contenting themselves with taking evidence.

WILL HOLD AUTOPSY.

Special to The Gazette.

CRIPPLE CREEK, June 24.—An autopsy will be held tomorrow in an effort to determine the cause of the death of William O'Neill, a brick mason, who died in Elkton this afternoon. O'Neill was taken suddenly ill in Victor last night and it is believed that he was poisoned in some unknown manner. He leaves two children in Des Moines, Ia.

BRYAN LEAVES TRONDHJEM.

TRONDHJEM, Norway, June 23.—Mr. and Mrs. William J. Bryan left Trondhjem today for North Cape.

DISQUALIFIES VESPER CREW

HENLEY STEWARDS REFUSE ENTRY OF PHILADELPHIA BOAT CLUB.

CHARGE THAT CREW MEMBERS ACCEPTED MONEY AND PAID EXPENSES BY POPULAR SUBSCRIPTION

HENLEY, June 24.—Besides declaring Saturday that no further entries shall be accepted from Vesper boat club of Philadelphia, the resolution of the Henley stewards which was passed unanimously declared that no entry comprising any member of the Vesper club's crew of 1905 should be accepted in the future. The resolution also stated that the committee was not aware that the public subscription was being raised to defray the expenses of the Vesper crew, or their entry would not have been accepted, such means for defraying the expenses of a crew being disqualification for the Henley regatta.

The stewards have published a statement that [illegible] resolutions of the National Association of Amateur Oarsmen show first that this committee had not inquired into the status of the Vesper crew to the extent that it led the Henley to believe it had [illegible] in certifying its qualifications [illegible] that the cost of sending a crew to Henley was partly defrayed by public subscription; third, that all the members of the Vesper [illegible] money; and fourth, that [illegible] of the Vesper [illegible] public [illegible]

YACHT OKEE WINS N. Y. OCEAN RACE

NEW YORK ATHLETIC CLUB HOLDS THIRD ANNUAL RACE IN LONG ISLAND SOUND

BLOCK ISLAND, June 24.—The yacht Okee, owned by [illegible] Mahlstedt, won the New York Athletic club's third ocean race from Whitestone [illegible] island down Long Island sound to the west harbor, finishing in [illegible] position but capturing the [illegible] by H. M. Raborg [illegible]. The second prize went to the Marguerite, owned by W. F. Clark; the third to the Uncas, owned by W. A. Law, the fourth [illegible] Little Rhody. Sixteen of the 24 starters finished the hundred mile run. The Okee's [illegible] time was 21:21 [illegible] corrected time 17:34:37.

GOLD DUST WINS RACE AT ROSWELL

Cotton Tail, the favorite in yesterday's race at Roswell park, was defeated by Gold Dust in a fast quarter. The victorious horse is owned by W. H. Watson of Colorado City, while Cotton Tail belongs to Henry Rickens of the same place. The race was run for a side bet of $100 and several hundred dollars are said to have changed hands as a result of the match, which aroused considerable local interest.

COMMERCIAL TRAVELER HAS A NARROW ESCAPE

SPOKANE, Wash., June 24.—One of the Howard street bridges over the Spokane river 150 yards east of the main falls collapsed this afternoon shortly after a street car had passed over. John H. Beem, a commercial traveler from Honey Creek, was carried down in the wreck but his clothing caught, suspending him on the brink of the upper falls. He was removed unhurt.

CONSTITUTIONAL PARTY WINS PANAMA ELECTION

PANAMA, June 23.—The elections today were orderly with the exception of a few fights, which were without serious results until late this afternoon, when a clash took place between liberals and policemen, who were protecting the ballot boxes at Santa Ana park. Nine policemen and Jose Antonio Paredes, a member of one of the best families, were badly wounded and one liberal was killed.

The constitutional party was victorious in Panama city and the provinces of Cocle, Veragua and Chiriqui.

LURLINE WINS PACIFIC RACE

LA PALOMA FAILS TO REACH HONULULU INSIDE OF 16 HOURS' ALLOWANCE.

C L TUTT'S YACHT ANEMONE HAS NOT YET CROSSED LINE LURLINE'S TIME IS 12 DAYS, 5 HOURS

HONOLULU, June 24.—The Lurline became winner of the Trans-Pacific yacht race at 11:30 a. m., when the time allowance expired. At 4:06 p. m. neither the La Paloma nor the Anemone had been sighted.

HONOLULU, June 23, 9:45 p. m.—The yacht Lurline has entered the harbor [illegible] crossed the finish line at [illegible] o'clock tonight. [illegible] sailing time from San Pedro was [illegible] days and five hours. [illegible] last the Lurline saw of the Anemone was [illegible] the start, 15 miles ahead, the Anemone having caught the breeze first while the Lurline was becalmed.

The Lurline made 16 miles the first day, [illegible] the second, and averaged [illegible] daily up to yesterday noon.

On the day that the steamer Mariposa sighted the La Paloma [illegible] miles from San Francisco, the Lurline was out over [illegible] thousand miles, therefore it is believed here the La Paloma is considerably behind. She wins, however, on account of her 16 hours time allowance if she crosses the line before 11:30 o'clock tomorrow morning.

Many launches went out to meet the Lurline and large crowds were at the wharves when the little craft came into the harbor.

SCORE, 2 TO 1

COLORADO SPRINGS SEMI-PRO TEAM DEFEATS P P F NINE IN OPENING GAME

By a score of 2 to 1 the newly organized Colorado Springs semi-professional baseball team yesterday won its opening game [illegible] at Roswell park against the Pike's Peak Fuel company team. The game was well played, as the score shows. It early developed into a pitchers' battle in which Riley, the Colorado Springs twirler, proved superior to Ackley, the former college slab artist. Riley struck out fourteen men while Ackley was able to retire only eleven to the bench.

The Colorado Springs team has arranged a series of three games [illegible] at Trinidad against the Big Six nine of that place.

Yesterday's score by innings:

C. S.	[illegible] 1 0 0 [illegible]	—2 [illegible] 2
P. P. F.	[illegible] 0 [illegible]	1 [illegible]

Batteries—Riley and Shields; Ackley and Hutt[illegible].

FOUNTAIN PEOPLE TO ATTEND PICNIC AT CLYDE ON FOURTH

Fountain is the latest town to indorse the grand, old-time western Fourth of July celebration that is being arranged for the people of this city and its visitors by Garden of the Gods company No. 2, Uniform Rank Knights of Pythias.

There will be no wild west exhibition at Fountain this year, but the population of that town will join the thousands who are planning to go to Clyde, on the Short Line, to celebrate the nation's 130th birthday.

A delegation of company No. 2 men went to Fountain yesterday and came back with the above report. Fountain's annual event has been called off and Clyde has been recommended to the citizens as the best place in which to spend the Fourth.

Reports from Pueblo, Florence, Canon City, Cripple Creek, Victor, and Denver, received by the committee, and by the Short Line from its representatives, indicate the largest picnic gathering in the history of the state. The charm of the scenic ride over the Short Line is one of the big attractions. The Short Line has made special arrangements for handling a crowd. There will be no need of "pushin'" or "shovin'." General Passenger Agent MacWatters has promised enough trains so that all may make the trip both ways in comfort. The company has arranged to maintain perfect order on the grounds and every detail looking to the comfort of the picnickers will be looked after.

The location, the grandeur of the trip and the elaborate program will combine to make this the greatest Fourth of July outing in the state's history.

The broncho-busting and steer-roping by cowboys—not amateurs, but real plains-worn cowboys will be a novelty to the visitors, a pleasant reminder to the old-timers and an unusual experience for most of the "natives." Then there will be a balloon ascension and parachute leap by a French aeronaut. This will be no "fake," but the genuine article. Prize drills, a ball game between two good teams, races for young and old, sports on the lake, dancing and music all day by the crack K. of P. band of Florence, composed of forty pieces. "Hit the nigger baby and get a good cigar," and its brother attractions will be on hand. Lunches and cool, soft drinks may be procured on the grounds.

SHOSHONE OPENING REGULATIONS RECEIVED

Copies of the regulations in regard to the opening of the ceded portions of the Shoshone or Wind river reservation in Wyoming, as provided by congress and contained in the president's proclamation, have been received in this city from the commissioner of the general land office. The regulations are as follows:

First—Applications either to file soldiers' declaratory statement or make homestead entry of these lands must, on presentation, in accordance with proclamation opening said lands to entry and settlement, be accepted or rejected, but local officers may, in their discretion, permit amendment of a defective application during the day only on which same is presented.

Second—No appeal to general land office will be allowed or considered unless taken within one day, Sundays excepted, after the rejection of the application.

Third—After rejection of an application, whether an appeal be taken or not, the land will continue to be subject to entry as before, excepting that any subsequent applicant for the same land must be informed of the prior rejected application and that the subsequent application, if allowed, will be subject to the disposition of the prior application upon the appeal, if any is taken from the rejection thereof, which fact must be noted upon the receipt or certificate issued upon the allowance of the subsequent application.

Fourth—Where an appeal is taken the papers will be immediately forwarded to the general land office, where they will be at once carefully examined and forwarded to the secretary of the interior with appropriate recommendation, when the matter will be promptly decided and closed.

Fifth—Applications to contest entries allowed for these lands filed during the sixty days from the date of opening will also be immediately forwarded to the general land office, where they will at once be carefully examined and forwarded to the secretary of the interior with proper recommendation, when the matter will be promptly decided.

Sixth—These regulations will supersede during the sixty days from the opening of these lands, any rule of practice or other regulation governing the disposition of applications with which they may conflict, and will apply to all appeals taken from the action of the local officers during the said period of sixty days.

Seventh—The purpose of these regulations is to provide an adequate and speedy method of correcting any material errors in local offices, and at the same time to discourage groundless appeals and put it out of the power of a disappointed applicant to indefinitely tie up the land or force another to pay him to withdraw his appeal.

TAKING PICTURES

GOVERNMENT PHOTOGRAPHER AT WORK HERE—WILL STAY ALL SUMMER.

Henry Lee, one of the United States government's official photographers, is in Colorado Springs with his camera. Under direction of the secretary of the interior, Mr. Lee has come here to take pictures of remarkable geological formations in the Pike's Peak region. He has been here for some time, and is camping in the Garden of the Gods.

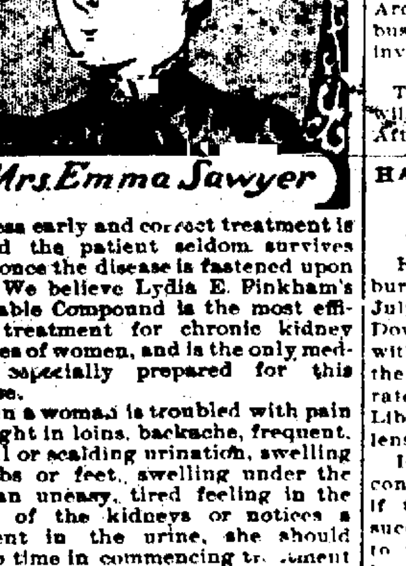

For a number of years the United States government has been collecting photographs taken in the Colorado hills which are carefully kept in the records at Washington. But this is the first time that it has sent an official photographer to Colorado Springs, and his reports on the work here have been so enthusiastic that he has received orders to stay all summer and to take pictures of all points of scenic interest.

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. We believe Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for chronic kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case." —Mrs. Emma Sawyer, Conyers, Ga.

Mrs. Pinkham gives free advice to women ; address in confidence, Lynn, Mass.

Societies and Clubs

Sublime lodge No. 123, K. of P., will meet tonight for work in the third degree. All members are requested to be present.

The Ladies of the Maccabees of the World will meet this afternoon in K. of P. hall. All visiting ladies are invited to attend.

Colorado Springs chapter No. 6, R. A. M., will hold a stated convocation tomorrow evening for work on the Royal Arch degree. A banquet will follow the business session. Visiting members are invited.

Tejon lodge, No. 104, A. F. and A. M., will hold a stated convocation tonight. After the work lunch will be served.

HAMBURG-AMERICAN LINE INAUGURATES NEW SERVICE

HAMBURG, June 24.—The Hamburg-American line intends starting in July a service between Libau and Dover and New York in competition with the Russian line of vessels of the volunteer fleet, which will inaugurate its service with the sailing from Libau, August 8 of the steamer Smolensk.

It is said that Russia is trying to control the emigrant traffic and that if the new volunteer fleet line is a success, this traffic no longer will go to the same extent by way of Hamburg and Bremen.

WIFE RIDES IN CATTLE CAR, SPOUSE USES PASS

OMAHA, Neb., June 24.—Dressed in her husband's clothes, in charge of a car of cattle, Mrs. Kate Miller traveled from Denver to this city, while her husband rode on a passenger train on a pass. George H. Miller lost his all at San Francisco. The pair went to Denver, but failed to find work.

A friend procured a pass for Miller, but Mrs. Miller could not ride on this. He also had an offer to go to Omaha in charge of a load of cattle. Mrs. Miller, who had cared for cows on her father's ranch, took the job.

RESUME OF WORK

(Continued From Page One)

[illegible]

disbursed it with authority of law.

A stricter [illegible] clerks. A revelation that [illegible] clerk had received [illegible] ing to $336 in one day brought about this provision.

Although there has been an effort to prevent the enlargement of what is known as the "permanent annual appropriations," this character of expense has increased during the session to the extent of nearly $5,500,000, making a total permanent annual appropriation of more than $140,000,000. Measures were introduced on which an effort will be pressed at the next session to repeal a portion of the permanent annual appropriations of the government.

Organized labor has succeeded in its requests of the present session of congress to the extent of securing the enactment of what is known as the "employers' liability bill." This will make it possible for an employe to secure damages for his injury, notwithstanding his own negligence may have been in part responsible for that injury.

Another bill that doubtless will become a law is that limiting the hours of continuous service of railway trainmen to sixteen consecutive hours work, to be followed by ten hours' rest. The much agitated eight-hour day bill received a favorable vote from the house labor committee, but too late to secure action at the hands of congress. The anti-injunction bill was postponed in committee until the next session.

One of the novel features of law making was the enactment of a measure to preserve the scenic beauty of Niagara falls. This action was in direct response to a popular demand that the falls be not denuded of their beauty to serve the purposes of commerce.

Enthusiasts for the "greater navy" regard the legislation of the session as inimical to the proper growth of that arm of our fighting force. Congress authorized the construction of the "biggest battleship afloat," with the provision that before the plans are submitted or bids received on a contract the plans of the ship must be submitted to congress at its next session. This provision was fought in the house with great zeal, but was carried by a small majority.

Hazing at the naval academy was given a further legislative rebuke by the passage of a bill giving the secretary of the navy discretion to dismiss or otherwise punish hazers at that institution.

A law was passed which will result in appropriate markings being made over the graves of Confederate veterans of the army and navy who died in northern prisons during the Civil war.

The wearing of the insignia of the Grand Army of the Republic or other soldier organizations by other than members of these organizations is made a misdemeanor.

Alaska was given the right to send a delegate to congress, and an act was passed whereby that territory will have a larger school and public improvement fund. The secretary of the interior was also authorized to allot homesteads to the natives of Alaska.

Although the ship subsidy measure did not become a law, twenty-four public acts relative to shipping were enacted. These were all minor in character and inaugurated [illegible]. The application of [illegible] to the Philippines was [illegible]. An omnibus bill [illegible] erection of a number of [illegible].

[illegible]

Ten bills relative to [illegible] United States were passed. [illegible]

[illegible] prosecution later.

President Roosevelt was given [illegible] to pay traveling expenses of [illegible] invited guests.

The private pension legislation of the session was heavy and many of such acts will be signed before [illegible] comes.

The Jamestown (Va.) exposition is expected to be recognized by [illegible] this session ends.

A bill introduced by Representative Sherman of New York was passed and will make it unlawful hereafter to stamp the words "government assay" on articles manufactured of gold and silver.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well

[illegible]

CHICAGO STREET CARS KILLED 21 IN 50 DAYS

CHICAGO, June 24.—Fatalities on street car accidents [illegible] staggered Mayor Dunne when he received a detailed report showing that in fifty days twenty-one persons were killed and 167 more or less seriously injured in eighty-two accidents. Mayor Dunne declared after reading the report that he will call a halt on the Traction companies [illegible] them better to protect the lives of citizens. He will order the police department to make close investigation of every accident hereafter.

MISSED SHOT CARRIES DEATH AND INJURIES

DURANGO, Colo., June 24.—The first fatal accident in the May Day mine, located six miles from Hesperus, occurred last night when a missed shot instantly killed Frank Hughes and dangerously wounded Charles Peters and Tony Schart. Peters' recovery is doubtful. Schart may be blinded for life.

Hughes resided at Hesperus, where he leaves a widow and three children, the eldest of whom is aged 5 years.

The May Day mine is owned by A. E. Reynolds, the mining magnate of Denver.

DURFEE APPOINTED.

PUEBLO, Colo., June 24.—Official notice signed by J. R. McKennan, of the Minnequa Steel works, has been posted, announcing that J. A. Durfee has been appointed as assistant manager of the plant.

We do not mean that $1.17 in money is actually enclosed in each package of Pillsbury's Best Breakfast Food—Vitos. But we do mean it saves you that much over the ready-to-eat kinds. Besides you get "Pillsbury" quality, and that's always the best. A package containing two full pounds costs 15 cents. When prepared, it makes 12 pounds. The ready-to-serve kinds, containing about ¾ of a pound to the package cost 10 cents. A full pound would cost about 11 cents. 12 pounds would cost $1.32. So the difference between 15 cents and $1.32 indicates the saving when Vitos is used—$1.17. Use Vitos regularly. Put $1.17 in the bank every time you buy a package. Vitos is a delicious food, it is the "White heart of the Wheat" berry. The very life of the grain.

Pillsbury's Best Breakfast Food

At interior points, where local freights are excessive, price 20 cents.

MONDAY JUNE [illegible] 1906

AN IMPORTANT COURT DECISION.

DURING the [illegible] Cripple Creek strike two years ago certain [illegible] military rule that is the strikers [illegible] agitators who espoused their cause and numerous individuals who felt themselves [illegible] aggrieved [illegible] trated by the militia. As a result of this [illegible] suits were [illegible] the defendants being Governor Peabody, General Bell and nearly everybody else who had anything to do with the suppression of lawlessness. One of these suits came to trial in the United States District Court at Denver last week, Judge [illegible] ing and [illegible] result [illegible] decision [illegible] become famous as a precedent in all [illegible].

This suit was brought by Michael Gibbin against E. F. Hill, Nelson [illegible] and H. F. McGarry [illegible] commission [illegible] the recovery of $30,000 [illegible] by the testimony of General Bell [illegible] commission [illegible] and the [illegible] and conf[illegible] the militia. At this point Judge Lewis [illegible] case from the jury and [illegible] verdict for the defendant [illegible] remarks he laid down the principle that in case of martial law [illegible] supreme [illegible] thority [illegible] of rest[illegible] cessities [illegible] basis [illegible] that military [illegible] pression and [illegible] citizens thereby injured.

There is [illegible] and in this case at least it is a true one. Military rule is always [illegible] it is apt to prove very burdensome to the people who are compelled to live under it even though nothing occurs to cause the imposition of special restrictions. But as Judge Lewis pointed out in his instructions [illegible] military [illegible] "suppress [illegible] civil authorit[illegible] are worse than worthless. The military must be made supreme or it is but little more effective than the civil authority. It is absurd to think of a military commander prevented by the fear of damage suits from carrying out the measures he knows to be necessary to restore law and order.

Judge Lewis' decision probably means the dismissal of the many other suits of a similar nature growing out of the Cripple Creek strike. But best of all it is a blow to Moyerism and Western Federation anarchy in general for it makes more difficult the resistance of this lawless element to the authority of the state.

PURE FOOD BILL PASSED.

THE PREDICTION that Congress would adjourn without putting a pure food law on the statute books is less likely to be realized now that the House has voted favorably on a bill intended to protect the nation's food supply. The bill which passed the lower branch of Congress last Saturday is not the same as the Hepburn bill passed by the Senate several weeks ago, so the measures must go to conference. Whether the committee will be able to reach an agreement during the present session remains to be seen as it is almost certain that Congress will adjourn within a week or ten days.

Both of the pure food bills have to do with other things than foods—unless we accept the doubtful view that alcohol is a food. The bill in the House last Saturday was [illegible] between Southern member[illegible] men from Kentucky [illegible] "straight" and [illegible] whisky [illegible] as food products are included in the provisions of the bill, and certainly there is plenty of room for legislation on this subject. In describing the process of manufacture of certain adulterated whiskies Mr. Stanley of Kentucky declared that some of the stuff sold as pure Bourbon whisky would "make a rabbit spit in a bulldog's face" and that "when it gets into a man it is pure hell."

There are a great many people who adhere to the good old Kentucky belief that there is no such thing as bad whisky, though some of it is better than the rest, and there are thousands of others who are as firmly convinced that all [illegible] damnable regardless of [illegible] or quali[illegible] a matter of pe[illegible] nviction and [illegible] has nothing to [illegible] with the present subject. But there is one fact to be kept in mind: a vast amount of whisky is drunk every year and there is not much chance of the quantity diminishing perceptibly as the years come and go despite all of the restrictive legislation and moral suasion put forth. Therefore it would seem to be wise to make sure that the whisky sold is as pure as possible.

There is no doubt that most of the stuff put on the market as "pure whisky" is adulterated with ingredients which make it far more injurious than it would be if absolutely pure. This [illegible] that produces [illegible] of the [illegible] and disease [illegible] after [illegible] are [illegible] who will gladly [illegible] thing that produces intoxication, but at least they [illegible] that [illegible] addicted to the use of liquors ought to have the privilege of knowing that when they buy these blended whiskies they are simply investing in a [illegible] fraud.

PRESIDENT TO VISIT PANAMA.

THE ANNOUNCEMENT made officially that President Roosevelt will visit the Isthmus of Panama next fall to inspect the canal work is not at all surprising when his keen interest in the enterprise is recalled. It is said that Mr. Roosevelt will leave Washington in October or early in November and will be gone about three weeks, one week of which will be spent on the Isthmus. The trip is to be made in a warship.

One week is not a long time in which to inspect thoroughly a work of such magnitude as the Panama Canal but Mr. Roosevelt is nothing if not [illegible] and on his travels he always manages to get a great deal of territory in a very short time. A few months ago Poultney Bigelow went to the Isthmus, stayed twenty-four hours and ten minutes and accumulated horrible details of mismanagement and incompetency sufficient to make a [illegible] magazine article. Mr. Roosevelt will not write [illegible] magazine but it is safe to say that [illegible] spent there by Mr. Bigelow he will learn more than seven times as much and what is more important what he learns is much more likely to be true.

This will be the first time in American history that a President has departed so far from American shores. There is or was until last fall a tradition which had all of the strength of unwritten law that a President should not set foot outside American territory during his term of office. About [illegible] years ago [illegible] Harrison while [illegible] ing an [illegible] visited [illegible] Texas [illegible] middle of the bridge over the Rio Grande River until he reached a point where a [illegible] further would have carried him into the Republic of Mexico but he didn't take the step. [illegible] this custom [illegible] law. The rulers of nearly [illegible] republics as well as [illegible] make frequent trips [illegible] German Emperor wandered far away from his own dominions as Palestine.

Last fall President Roosevelt broke the rule for [illegible] in which he set [illegible] New Orleans passed outside the three [illegible] the end of American jurisdiction and the beginning of the high seas. It is [illegible] was on board an American warship [illegible] part of the American nation [illegible] and that he was in constant communication with Washington by means of wireless telegraphy but he was outside the United States just the same. It will be exactly the same when he visits Panama except that he will go farther from American shores. He will not set foot on foreign territory for the Canal Zone is as much American soil as Washington itself, but for the [illegible] time he will violate this ancient tradition. But Roosevelt has been violating traditions ever since he stepped into public life so there is nothing particularly striking in his coming performance.

Colorado Comment

OTERO COUNTY AWAKE.

From [illegible]

[illegible] state [illegible] passed March 22, 1902, all state lands are taxable to the amount of the interest [illegible] the purchaser together with all improvements thereon, but the law has never been enforced [illegible] section of the law which provides that the assessors of the state must assess all property at its full cash value. Not an assessor in the state has [illegible] attempted to assess state land. At the [illegible] meeting of the board of [illegible] county a resolution was passed instructing the county treasurer to assess all state lands in [illegible] county as the law provides and to collect taxes [illegible] the interests owned by all purchasers [illegible] for the years 1902, 1903, 1904 and 1905. The amount of land affected under this resolution will aggregate 43,000 acres in [illegible] county and the amount of revenue the county will derive will be [illegible] $3,000. Much of the state land in Otero county that was purchased for $[illegible] per acre is surrounded by [illegible] land that is worth from $200 to $300 per acre. State land has hitherto escaped taxation and not borne its proper share of the burden of government and it was with the intention of [illegible] this injustice that the resolution was passed. Otero county has taken the initiative and as the law is plain just and right the [illegible] should be commended for the stand they have taken.

✣ ✣

THE FARMER TO BE ENVIED.

From the Fort Collins Evening Courier.

The farmer who raises, kills and cures his own meat, produces preserves and pickles his own fruit and vegetables, makes his own butter and cheese and can have fresh chicken on his table every day in the year if he wants it, is not dependent on the slaughter houses and public canneries and their products for the wherewithal to keep soul and body together. His lot is surely to be envied. No visions of [illegible] preservatives, death-dealing m[illegible] or bull butter and cheese trouble his slumbers. An appetite sharpened by an out-in-the-air life is readily appeased from an abundance of food fit for a king laid before him at meal time and he rises from the table refreshed and strengthened for the duties before him. How happy and independent his lot compared with the man who trusts to the markets for his daily [illegible] knowing what health destroying and death dealing poisons may be lurking within each article he buys. If there be a grain of truth in the re[illegible] concerning conditions in the packing houses [illegible] developed it is surprising that a [illegible] healthy person exists in the large cities [illegible] upon the food products of these establishments. But there are millions of them which [illegible] to believe that much that has been published [illegible] past month is the [illegible] agination of some super[illegible] who have [illegible] both us [illegible] have just had their first view of the [illegible] methods employed in preparing food for the millions.

A Cocktail Joke

Mark Twain's First Interview With Artemus Ward

(By S. L. Clemens.)

I HAD never seen him before. He brought letters of introduction from mutual friends in San Francisco and by invitation I breakfasted with him. It was [illegible] there [illegible] sal [illegible] meal with cocktails. Artemus, with the true [illegible] always deferred to the customs of the country he was in [illegible] three [illegible] [illegible]

[illegible]

[illegible] Now [illegible] you have been over to Silverland here to Nevada [illegible] three years [illegible] and therefore you know all about silver mining [illegible] Now what I want to get at is [illegible] the way the [illegible] you know [illegible] Now as I understand it the vein which contains the silver is sandwiched in between [illegible] along [illegible] sticks up like a curbstone. [illegible] forty foot thick for example or eighty or [illegible] or even 100 [illegible] you go down on it with a shaft [illegible] with what you call inclines [illegible] and all the time this vein grows [illegible] when the [illegible] you may say that is when they dip [illegible] which [illegible] always [illegible] where the [illegible] and [illegible] has failed [illegible] everything [illegible] that all things being equal [illegible]

[illegible] am very [illegible]

[illegible] enough but that cocktail has muddled [illegible] understand [illegible] would [illegible] if you will [illegible] again [illegible]

He said: "Why, what I was after [illegible] particularly [illegible] kind [illegible] This vein [illegible] runs along between [illegible] Very well. Now suppose you go [illegible] that [illegible] bef[illegible] you drift and [illegible] start your drifts [illegible] across the [illegible] and others along the length of it where the sulphur[illegible] call them sulphurets though why they should, considering that so far as I can see the main [illegible] some suppose but it [illegible] which it cannot be successfully maintained wherein the [illegible] should continue [illegible] parcel of the same are not committed to either in the sense referred to, whereas under different circumstances the most inexperienced among us could not detect it if it were or might overlook it if it did, or scorn the very idea of such a thing even though it were palpably demonstrated as such. Am I right?"

I said sorrowfully: "I feel ashamed of myself, Mr. Ward. I know I ought to understand you perfectly well, but you see that infernal whisky cocktail has got into my head and now I cannot understand even the simplest proposition. I told you how it would be."

"Oh, don't mind it, don't mind it; the fault was my own, no doubt—though I did think it was clear enough for—"

"Don't say a word. Clear! Why, you stated it as clear as the sun to anybody but an abject idiot; but it's that confounded cocktail that has played the mischief."

"No, don't say that. I'll begin it all over again—"

"Don't now; for goodness' sake don't do anything of the kind, because I tell you my head is in such a condition that I don't believe I could understand the most trifling question a man might ask me."

"Now don't you be afraid. I'll put it so plain this time that you can't help but get the hang of it. We will begin at the very beginning." (He leaned far across the table with determined impressiveness wrought upon his every feature and fingers prepared to keep tally of each point as enumerated and I, leaning forward with painful interest, resolved to comprehend or perish.) "You know the vein, the ledge, the thing that contains the metal, whereby it [illegible] the medium between all the [illegible] whether of present or remote agencies so brought to bear in favor of the former against the latter or [illegible] both [illegible] the relative [illegible] existing [illegible] the [illegible] then culminates in several degrees of similarity to [illegible]

I said: "Oh, blame my [illegible] I heard a suspicious noise behind me and turned in time [illegible] Hingston dodging behind a newspaper and quaking with a gentle ecstasy. I [illegible] Ward and [illegible] that didn't [illegible] sun.

Artemus Ward [illegible] but [illegible] bitter.

"THIS ETERNAL AGITATION."

From [illegible] New York Commercial.

[illegible] The real trouble [illegible] is not [illegible] hysteria [illegible] the public [illegible] small concern [illegible] [illegible] federal government [illegible] to Congress [illegible]

[illegible] The present [illegible] reason [illegible] of [illegible] sub[illegible] [illegible] this eternal agitation will be taken to see [illegible] and the business suffer worse than now. Better [illegible] legislation to satisfy [illegible] federal supervisory law that will be fair and reasonable and protect [illegible] free of constitutional flaws [illegible] the first thing [illegible] later on passing through another [illegible] of packing house hysterics.

RUSSIA'S NEED

From the New York Times.

Russia is [illegible] in extreme need of a man. Her well-wishers thought for a time she had secured one in [illegible] Witte, but whether his failure was due [illegible] himself it was unmistakable. He was not the man to [illegible] Russia by peaceful means. Nobody else has appeared [illegible] likelihood of doing better or even so well.

The czar at least [illegible] could be doing more [illegible] the theory [illegible] belated [illegible] than that [illegible] Autocrat, an autocrat who is of the opinion of the last speaker, who is blown about by every wind of doctrine and who is plainly as little capable as any man in Russia of reconciling the traditions of its government with the legitimate aspirations of its people.

If the czar could take and keep a line, even if it were a wrong one, he would be a more respectable and less melancholy figure than he is and would stand a better chance than he seems to stand of passing his life in his own country, to say nothing of dying in his own bed. The League of Military Regeneration has taken about as wrong and foolish a line as can be imagined. It plants itself on the old Russian ideas of government. But the Cossack officer who expressed its purpose by saying that "the army must saber everybody who opposes the emperor's will" at least said something intelligent. He omitted to say what should be done in the actual exigency of the emperor's having no will of his own, but weakly complying with and weakly opposing by turns the will of the Russian people.

"God [illegible] how rare men are!" said [illegible] in his early days. Italy contains fifteen millions, and I have found but two. Russia contains a hundred millions and has not yet found one. And yet she is bound to find one under the heaviest possible [illegible]

SEARCHLIGHT REFLECTION WAS SEEN IN DENVER

According to Denver newspaper men the reflection from the searchlight which was tested in this city Saturday night on the top of the First National Bank building was seen on the clouds at Denver. This report was verified yesterday by members of the Denver Press club who were in this city on the circle trip. That the light rays from the searchlight penetrated so far is considered extraordinary in view of the fact that the machine was only being run at one-quarter of its full strength. If the weather is favorable, the searchlight will be tested again in this city tomorrow night.

Dr. B. Frank Gr[illegible]y has removed his office to Rooms 1 and 2, Postoffice building. Telephone Black 351.

DEEP MINING AND HEAVIER OPERATIONS IN GILPIN COUNTY

CENTRAL CITY, Colo.—Never was the outlook more promising in Gilpin county for increased operations and for a future heavy production than at the present. Several sales have recently been made in different portions of the county showing the confidence placed in the future of the oldest mining section of Colorado. Heavier developments are being planned every day calculated to put the properties in shape for a much larger and heavier production, and this new work is not confined to any particular area, but will be noticed in almost every one of the districts, old and new alike. It is almost in the nature of a boom, but one which promises permanency of operations, deeper developments and the opening up at depths of from 1,000 to over 2,000 feet of the true fissure veins of the county, which will mean, within a reasonable time, a daily production of several thousands of tons of ore. It will mean the employment of hundreds of more miners and a scene of activity which has not been witnessed for years. Outside capital is becoming interested and the county is being placed where it is reasonably sure of returns, and this is evidenced in a large sense by the visit this week of a party of eighty-five eastern capitalists who have decided to subscribe one million dollars for the development of the famous Gregory, Bobtail, Fiske, Cook, Mammoth and other well known mines owned by the Fifty Gold Mines corporation. The investment of such a large sum for development purposes means the sinking of their main or Cook shaft down to at least the 2,000-foot point, and the development of these historic veins, followed by a product which will make them the heaviest shippers in the state. These properties have already produced over twenty million dollars down to their present depth of a little over 1,300 feet.

The Old Town mine in Russell gulch, with its record of nearly two million dollars during the past ten years, was developed from an idle prospect, and is to be sunk 800 feet deeper, or to the 2,300 mark, which will enable it to be connected with the lateral from the Newhouse tunnel, for the future economical handling of the immense project through these workings, besides solving the drainage of the large workings. The famous Gunnell mine, now 1,300 feet deep, is to be equipped with a large plant of machinery and the company will sink it several hundred feet deeper and make it as great a producer as ever before. The Running lode near Black Hawk, an idle property 400 feet deep and sold for $15,000 six years ago, and which has since produced a million dollars, over half of which has been profit, is nearing its 1,100-foot mark, and the fact that the highest grade ores produced have been found in its lowest workings are evidence of the continuity and permanency of Gilpin county veins. In the California mine, the deepest in the county, its shaft bottom being 2,261 feet below the surface, good ores have been opened up and as soon as the Newhouse tunnel will reach Quartz hill and relieve it of its own and accumulated water, this mine will again become one of the regular producers. The well-known Mackey in the Pine Creek district, in which Missouri capital is largely interested, will sink its shaft several hundred feet deeper this year, the present indications being that larger and better ore bodies are being found with increased depth and so well satisfied is the company that they have decided to expend about $20,000 in the installation of an electrical power plant and the addition to their mill, which is to be located right at the mine near Elk Park. Other instances might be given, but the above are convincing proofs, which can be verified as regards the future and the stability of Gilpin county mining enterprises.—Central City Weekly Register-Call.

WILL OPEN BI-METALLIC GROUP ON BROAD SCALE

SILVER PLUME.—President John W. Houghton of the Bi-Metallic Tunnel and Mining company, who arrived last week from Philadelphia to give his entire attention to the management of this property, is elated over the showing that is being made in the tunnel, as there are good indications that the ore zone is being penetrated and that a good body of mineral is liable to be encountered at any time that will put the enterprise upon a paying basis.

Work has been progressing with but little interruption for the past two years, and the tunnel has been driven 800 feet into McClellan mountain towards the numerous veins known to lie in its course. Recently two of these lodes have exposed a good showing of ore, a sack of it containing considerable galena mixed with quartz.

The tunnel is being driven on a large cross lode that was found to run in the course it was desired to have the tunnel go, and this has made the work much more economical than it would have been to drive through hard country rock.

The heading of the tunnel is nearing the Elk Bell lode, from which several thousand dollars worth of ore was taken some years ago from surface workings, this product ranging in value from $74 to $90 a ton.

Mr. Houghton chanced to visit this locality several years ago and became interested in the great possibilities of the veins traversing the gold belt of McClellan mountain, many of which gave promising indications from the little development that had been done on them near the surface, and he began to acquire claims with the idea of forming a large group that could be developed by means of a single tunnel driven at the base of the mountain in order to open the veins at great depth, and in addition to the Bi-Metallic group he has secured the Daisy group, lying higher up on the mountain, which can also be developed by extending the tunnel to them, and they will be intersected at a depth of from 1,500 to 2,000 feet. This group has surrendered ore, the veins carrying a high gold value, as well as silver and lead, the ore ranking in value from $150 to $200 a ton.

By extending this tunnel a few thousand feet the Silver Plume Mines and Tunnel company's group and the Aldrich group would be reached, and it also would cut under the famous Stevens group, from which several million dollars has been taken.—Daily Mining Record.

LARGE YIELD EXPECTED FROM THE GOLDEN FLEECE PROPERTY

TWIN LAKES, Colo.—One of the promising sections of the Twin Lakes district is Bull hill, seven miles west of the town, reached by six miles of wagon road and one mile of burro trail.

The Golden Fleece group, owned and operated by the Parrot Mining and Milling company, is on the southwest slope of this mountain, at an altitude of nearly 12,000 feet. The group consists of six patented claims and is developed by one tunnel of 500 feet near the discovery, and another which is in 250 feet. The latter is being driven to intersect, at greater depth, the ore body encountered in the upper tunnel. It is expected that the vein will be reached this month.

The ore is an iron sulphide carrying high values in gold, with some silver, lead and copper. Smelter returns and mill runs have demonstrated that this property, when sufficiently developed so that the ore can be handled in an economical manner, will prove to be a bonanza.

The vein is a contact fissure, lying between porphyry and granite, suggesting continuance both horizontally and vertically. The porphyry dyke can be traced across the country for seven miles and is from 100 to 150 feet in width.

Lying south and west of the Golden Fleece, is the property of the Last Chance Mining, Milling and Tunnel company, consisting of seven lode claims and the Last Chance placer. This property is developed by 500 feet of tunnels, a 75-foot shaft and numerous cuts. The shaft has a good showing of ore of a medium grade. It is believed that a crosscut, which is in 200 feet, will reach ore inside of the next 50 feet. On account of a heavy crosscut, a year ago, work was stopped. It is expected that the company will resume operations soon.

On the south and east slopes of Bull hill, the Fidelity company is developing a group of eight claims, two of which are patented. Large quantities of rich float is found on this property. A great deal of surface work was done in former years, with a view to finding the sources. Work done late last fall accomplished the desired results. Two hundred feet of tunnel was driven during the past winter to cut the vein at a depth of 250 feet. Work is being continued in the tunnel and definite results may be expected during the present month.

There are a number of individual properties on the hill in the prospect stage which have good showings that will be further developed during the summer.—Daily Mining Record.

DEVELOPING ORE BODIES IN PROPERTIES OF BOWERMAN

PITKIN, Colo.—The Santa Fe Gold Mining company is now [illegible] of the Little B. The shaft is down 30 feet, [illegible] and the vein has [illegible] from two and one-half to three and one-half feet and the values are correspondingly increased. The ore in the three and one-half feet runs $120 in gold and 5 per cent copper. This strike will cause many properties to be worked on South Copper [illegible].

[illegible] W[illegible] and J. M. Walker of [illegible] have [illegible] the Amethyst which [illegible] But one [illegible] that the extent [illegible] so far. The [illegible] is of paying character [illegible] three claims [illegible] Amethyst [illegible] which cover [illegible] veins.

Judge Fenwick Dunbar has two [illegible] work on the Jack Hinton lode, on Monarch hill, on South Copper mountain. He has cut 20 feet across the vein without reaching the hanging wall. The crosscut is [illegible]. Work will be prosecuted during the summer. The judge started work last week on the Mayflower and Thanksgiving, where [illegible] a fine showing of gold [illegible].

[illegible] and Jennings are running a [illegible] on the Last Dollar group, north of Loraine town site. They have a large vein which pans gold freely.

The Eldorado is being worked with two shifts under the management of Mr. Reardon. Ore is being stored for shipment. The values are in silver, lead, gold and zinc, in the order named.

Arthur Bennett has resumed work on the Paonia group, which joins the Camp Bird on the south. Some fine ore is on the dump.

Elmer Wiley has some fine ore on the Mullingar group, one mile north of Waunita Springs. He is doing much work on the group, which comprises eight claims, one of which is patented.

Alphonse Roberts is developing two claims owned by Mrs. A. B. Clark and Mrs. A. Roberts.

J. C. Slaughenhaupt expects his tunnel to reach the Independent vein in less than 20 feet. Mr. Hawkins, who owns two adjoining claims, is in camp, and will do considerable development work in the next two months. Mr. Beasley, one of Bill Rose's partners, was in last week looking over his interests and seemed much pleased with the showing.

Grant Roberts is hauling the tailings from the [illegible] Cross mill to the Pitkin Reduction Works for treatment.—Daily Mining Record.

THISTLEDOWN DRIVING ADIT

EXPECTS TO REACH LOCALITY OF THE BIG VEIN AUGUST 15. BODY OF GOOD QUALITY AT OTHER POINTS.

OURAY, Colo.—The Thistledown Mining and Milling company is nearing the time when the property will be placed on a paying basis. Six hundred feet more driving on the Thistledown vein will bring them to the intersection of the Thistledown and Mendota veins and directly under an ore shoot which has been prospected 1,000 feet above the present tunnel level, showing ore of sufficient grade and quantity to warrant the development work being done. It is the intention to reach the objective by August 15.

This property was located years ago and work by George Mackey and Riley Hopper. They drove a tunnel 415 feet, which carried them 115 feet past the vein they were driving for, and becoming discouraged with the outlook, they abandoned the property.

In 1899, M. L. Thistle, who is the present manager of the company, relocated the ground, taking up seven claims, and did extensive prospecting. Becoming satisfied that there was a producing mine there if properly developed, Mr. Thistle located and added twenty-three claims to the group and solicited the inspection of the property by some of his friends. The result of the investigation is that his brother-in-law, C. H. Babcock of Waterloo, Ia., became interested and succeeded in successfully financing a company with a capitalization of $300,000, constituting as many shares of stock having a par value of $1 each. The organization was completed in December, 1902.

In 1903, after prospecting above, Mr. Thistle came down the hill to the old working of Mackey and Hopper, and started a crosscut 127 feet from the breast of the old tunnel, for the Thistledown vein. When the vein was crosscut it proved to be so hard and so low in value that it was concluded to drift alongside of it and cross it occasionally. It was later found to be so soft that it was advisable to continue drifting along the side. Eight hundred feet has been run, the first part through a conglomerate in which the vein carries no values to speak of, and later the ground is a birdseye porphyry, in which the values are very little higher. All this ground seems to lack the peculiar property necessary to precipitate the values.

It is expected they will reach the andesite soon, and as in that the values are found above, there is no reason the manager believes they should not be encountered when the andesite is reached in the tunnel.—Daily Mining Record.

TRIANGLE SOON TO DEVELOP GAFF ESTATE

LEADVILLE, Colo.—The Triangle Mining company has secured a long and favorable lease on the Badger, Lady Alice and Triangle claims and some fractions belonging to the Gaff estate, situated on the east side of Adelaide park.

Several years ago the owner did considerable work on the Lady Alice and Badger claims, sinking the latter shaft 800 feet, and also the Lady Alice to a good depth. Numerous drifts were run on both claims and some good ore taken from them.

With the death of Gaff work was suspended and the properties have been idle for years. The property is well situated, being in the heart of the trend of the great ore shoots from north and south Iron hill.

The Badger shaft was sunk in the [illegible]. Drifting north and south [illegible] rich sulphide ore. It is the intention of the company to work this shaft alone for the time being. After the shaft is put in proper shape and a [illegible] been installed, exploration will be carried [illegible] from the bottom of the shaft [illegible] ore channels.

With the new tunnel [illegible] mines, the water [illegible] Adelaide park, to a great extent [illegible] so the new company will [illegible] from this source. Underground work will be started toward the end of the month.—Daily Mining Record.

AN ALARMING SITUATION

frequently [illegible] of clogged bowels and [illegible] constipation becomes [illegible] condition is unknown. [illegible] New Life [illegible] stimulators of [illegible] by the Hefley-Arcularius Drug Co. Price 25c.

PRODUCER MINING COMPANY FORMED

WILL RESTORE FAMOUS SILVER AGE-FRANKLIN MINE.—TO OPERATE UNDER LEASING SYSTEM.

IDAHO SPRINGS, Colo.—The restoration of the Silver Age properties by the Producer Mining company is progressing rapidly. The lower levels are partly unwatered and the pumps are working day and night in two shifts. As the water level recedes, timbermen follow and replace the timbers and keep the shaft in good order. The lower levels can be entered as fast as they are cleared of water and mining operations commenced, for it is found that the timbering below the water is in an excellent state of preservation.

During the past week the turbine wheels at the power plant have been undergoing a thorough overhauling, which has necessitated the firing of the auxiliary steam plant which is maintained for such emergencies. When the repairs are completed the water-power plant will be prepared for pumping, hoisting or other purposes in the mine.

There are ten sets of leasers working in the mine at present in the ground above the tunnel level and all have ore. Shipments are going from the bins on the dump daily and the returns are in nearly every case highly satisfactory. As many more have spoken for ground below and are anxiously awaiting the removal of the water so that work may be started. The lower levels have not been mined so closely as have those above and offer better opportunities than above, where most of the mining of years has been done.

The Producer company was organized by William Knowles, who formerly managed the property, and operations are under the management of Samuel Brethour, who has been associated with the mine for years and is acquainted with all the ore shoots and every peculiarity of the veins. The faith the gentlemen show by their works is founded upon an intimate knowledge of the mine and the conditions surrounding operations. That the enterprise will prove a success is confidently believed by those who know the mine and the men who have it in charge.—Idaho Springs Mining Gazette.

JESSIE MAKES GOOD SAVING

ABUNDANCE CROSSCUT REACHING FOR KNOWN VEINS. SILVER KING'S NEW ORE SUPERIOR.

BRECKENRIDGE, Colo.—The large 40-stamp mill is in operation by the Jessie Leasing company on gold ore, which is partly oxidized and besides the free gold saved by amalgamation an excellent grade of auriferous iron concentrate is made from the mill pulp, after it has passed over the amalgamated copper plates by means of a number of Wilfley concentrating tables. This company is backed by Chicago capital.

The Abundance company is steadily pushing a crosscut tunnel into Mineral hill for the purpose of cutting several veins contained in their group. The veins have been opened by a shaft and crosscuts and the value of the ore ascertained. The new tunnel will cut the veins at considerable depth and afford an economical method for the extraction of ore.

It is estimated that the new strike at the Silver King will assay from one-half to an ounce in gold, with from 35 to 40 per cent in lead and some silver. The lessees have opened six veins during the past eighteen months on a piece of ground 261 by 82 feet, making seven known veins on the property. The property has surrendered smelting ore returning $42.40 to the ton.

It is said that large boulders of quartz containing free gold are being frequently encountered in the placer pits of the Banner. The prediction of Colonel L. Kingsbury that his operations would eventually disclose the source of the gold ledges from which the glacial action of the ice era eroded the high-grade gold found in the placers of which he has charge, is in a fair way to be realized. The actual value of the sand concentrated at the Banner is said to be $25 a ton.

The New Pennsylvania Mines company, in the Montezuma district, started its concentrating mill last week. The Pennsylvania is one of the heavy producers of that section.

Two new 60 horsepower steam boilers have been installed at the Wire Patch mine.—Daily Mining Record.

THERE ARE FEW

people who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. Herbine will keep it in condition. V. C. Simpkins, Alba, Texas, writes: "I have used Herbine for Chills and Fever and find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grown people, and I recommend it. It is fine for La Grippe." Sold by the Hefley-Arcularius Drug Co.

CHRISTIANIZING INFLUENCES

Thomas A. Edison, celebrating his 59th birthday, prophesied that the world would soon have flying machines, cheap automobiles and a dozen other marvelous things. "Do you think, sir," said a young woman reporter, "that the world will ever become Christianized?" Mr. Edison smiled. "Not only do I think so," he said, "but I think we shall both live to see it. Just look at the way these big, improved machine guns are wiping out the heathen."

CHOOSE YE.

A Message on the Dedication of the Christian Science Temple in Boston.

BY MARY BAKER G. EDDY

Copyright, 1906, by Mary Baker G. Eddy. Used with permission of the author.

My beloved brethren:

The divine might of truth demands well-doing in order to demonstrate truth, and this not alone to accord with human desire but with spiritual power. St. John writes: "Blessed are they that do his commandments, that they may have right to the tree of life, and may enter in through the gates into the city."

The sear leaves of faith without works, scattered abroad in Zion's waste places, appeal to reformers, "Show me thy faith by thy works."

Christian Science is not a dweller apart in royal solitude; it is not a law of matter nor a transcendentalism that heals only the sick. This science is a law of divine mind, a persuasive animus, an unerring impetus, an ever-present help. Its presence is felt, for it acts and acts wisely, always unfolding the highway of hope, faith, understanding. It is the higher criticism, the higher hope, and its effect on man is mainly this: that what one knows of him, on examination one is compelled to think genuine, whoever did it. A Christian Scientist verifies his calling. Choose ye!

When, by losing one's faith in matter and sin, one finds the spirit of truth, then he practices the Golden Rule spontaneously, and obedience to this rule spiritualizes man, for the world's nolens volens cannot enthrall it. Lust, dishonesty, sin disables the student; it precludes the practice or efficient teaching of Christian Science, the truth of man's being.

The Scripture reads: "He that taketh not his cross, and followeth after me, is not worthy of me." On this basis, how many are following the Wayshower? We follow truth only as we follow truly, meekly, patiently, spiritually, blessing saint and sinner with the leaven of divine Love, which woman has put into Christendom and medicine.

A genuine Christian Scientist loves protestant and Catholic, D. D. and M. D.—loves all who love God, good; and he loves his enemies. It will be found that, instead of opposing, such an individual subserves the interests of both medical faculty and Christianity, and they thrive together, learning that mind-power is good-will toward men. Thus unfolding the true metal in character, the iron in human nature rusts away; honesty and justice, not "just lee," characterize the seeker and finder of Christian Science.

Thanks for the railroad company's courtesy; long live that railroad management, in which "man's a man for a' that!"

The pride of place or power is the prince of this world that hath nothing in Christ. Our great Master said: "Except ye become as a little child, ye cannot enter the kingdom of heaven"—the reign of righteousness, the glory of good, healing the sick and saving the sinner. The height of my hope must remain, Glory be to thee, thou God most high and nigh.

Whatever is not divinely natural and demonstrably true in ethics, philosophy, or religion is not of God and originates in the minds of mortals. It is the Adam dream according to the scriptural allegory, wherein man is supposed to start from dust and woman to be the outcome of man's rib—marriage synonymous with legalized lust, and the offspring of sense the murderers of their brothers!

Wholly apart from this mortal dream, this illusion and delusion of sense, Christian Science comes to reveal man as God's image, his idea, coexistent with him—and God giving all and man having all that God gives. Whence, then, came the creation of matter, sin, and death, mortal pride and power, prestige or privilege? The first commandment of the Hebrew decalogue, "Thou shalt have no other Gods before me," and the Golden Rule are the all-in-all of Christian Science. They are the spiritual idealism and realism which, when realized, constitute a Christian Scientist, heal the sick, reform the sinner, and rob the grave of its victory.

The spiritual understanding which demonstrates Christian Science enables the devout Scientist to worship, not an unknown God, but him whom, understanding even in part, he continues to love more and to serve better.

Beloved, I am not with you in propria persona at this memorable dedication and communion season, but I am with you in spirit and in truth, lovingly thanking your generosity and fidelity, and saying virtually what the prophet said: "Continue to choose whom ye will serve."

Forgetting the Golden Rule and indulging sin, men cannot serve God; they cannot demonstrate the omnipotence of divine Mind, that heals the sick and the sinner. Human will may mesmerize and mislead man; divine wisdom, never. Indulging deceit is like the defendant arguing for the plaintiff in favor of a decision which he knows will be turned against himself.

We cannot serve two masters. Do we love God supremely? Are we honest, just, faithful? Are we true to ourselves? "God is not mocked." "Whatsoever a man soweth, that shall he also reap." To abide in our unselfed better self, is to be done forever with the sins of the flesh, the wrongs of human life, the tempter and temptation, the smile and deceit of damnation. When we have overcome sin in all its forms, men may revile us and despitefully use us, and we shall rejoice, "for great is our reward in heaven."

You have dexterously and wisely provided for The Mother Church of Christ, Scientist, a magnificent temple wherein to enter and pray. Greatly impressed and encouraged thereby, deeply do I thank you for this proof of your progress, unity and love.

The modest edifice of The Mother Church of Christ, Scientist, began with the cross; its excelsior extension is the crown. The room of your leader remains in the beginning of this edifice, evidencing the praise of babes, and the Word, which proceedeth out of the mouth of God. Its crowning ultimate rises to a mental monument, a superstructure high above the work of man's hands, even the outcome of their hearts, giving to the material a spiritual significance—the speed, beauty and achievements of goodness. Methinks this church is the one edifice on earth which most prefigures self-abnegation, hope, faith, love, catching a glimpse of glory.

Pleasant View, Concord, N. H., June 9, 1906.

PHONOGRAPH AND THE KORAN

The ulemas of the University of Al Azhar have decided as to the phonograph and insurance that there is nothing in Islamic doctrine to forbid Moslems to listen to the phonograph, and that, if the verses of the Koran are suitably intoned from the phonograph, the listener may justly be considered to be performing an act of worship. Fire and life insurance are, however, condemned by the sheik as a gambling transaction contrary in spirit to the teaching of the Koran.

LEGAL NOTICES.

NOTICE TO PUBLISHERS.

Colorado Springs, Colo., June 15, 1906.

Bids will be received by the City Clerk of Colorado Springs, until 4 o'clock p. m., of Monday, July 2, 1906, for the publication of ordinances and all legal advertising of the city.

The City will enter into contract for six months from July 1, 1906, with the party whose bid is accepted.

The right to reject any and all bids is reserved.

By order of the City Council.

K. M. MAC MILLAN,
City Clerk.

NOTICE TO CONTRACTORS.

Colorado Springs, Colo., June 19, 1906.

Bids will be received by the City Clerk of the City of Colorado Springs until 4 o'clock p. m. of Monday, July 2, 1906, for furnishing all materials and labor and bearing all expense for the construction, complete in place, of the 1906 Sewer Extensions for said City. The estimated amounts and sizes of sewer pipe, etc., required are as follows:

6,425 lin. ft. 8-inch Pipe.
230 lin. ft. 6-inch Pipe.
210 8inx6in Y's.
8 6in.x6in Y's.
24 Man Holes.

Each bid must be accompanied by Certified Checks for Five Hundred Dollars ($500.00). The successful bidder will be required to furnish a surety bond in the sum of Five Thousand Dollars ($5,000) to insure the faithful performance of the work, and Employers' Liability Insurance in the sum of Five Thousand Dollars ($5,000.00).

Plans, Specifications, etc., may be obtained at the office of the City Engineer, City Hall.

The right is reserved by the City to reject any and all bids.

By order of the City Council.

K. M. MAC MILLAN,
City Clerk.
June 21st, 1906.

NOTICE IS HEREBY GIVEN that a special meeting of the stockholders of THE COLORADO SPRINGS & CRIPPLE CREEK DISTRICT RAILWAY COMPANY will be held at the principal office of said company in the city of Colorado Springs, El Paso County, Colorado, on Thursday, the twenty-eighth day of June, 1906, at 10 o'clock in the forenoon of that day.

(a) To consider a new code of by-laws and the advisability of the adoption thereof by the said company in lieu of the by-laws now in force; and

(b) To transact such other business as may be properly brought before the meeting.

The stock transfer books of the company will be closed at 3 p. m. on Saturday, the 16th day of June, 1906, and will be reopened at 10 a. m. on Monday, the 2d day of July, 1906.

Dated Colorado Springs, Colorado, May 28, 1906.

By order of the board of directors.

(Signed) FRANK TRUMBULL,
President.

(Signed) JAS. STEUART MACKIE,
Secretary.

SEALED BIDS

Will be received by the city treasurer of Colorado Springs until June 30, at 12 M. for materials and supplies for the several city departments or offices, respectively, to be delivered at place designated within the city of Colorado Springs, in accordance with specifications at such times and in such quantities as they may be needed, during the third quarter of the current fiscal year.

Estimates and specifications will be furnished on application by the city treasurer and bids made must be in accordance with specifications.

The city reserves the right to reject any and all bids.

By order of the city council, March 7, 1906.

W. H. HOAGLAND,
City Treasurer and Purchasing Agent.

READ THE GAZETTE WANTS.

Don't you think if well invested
That your bank account would grow?
Ask yourself, kind sir, these questions,
And if you at length decide
You can better your condition,
Know then where there is a guide
That will point out all the places
From which gains and profits flow—
Read The Gazette directory
Of people's wants and then you'll know
Just where you can find the people
Who are anxious to invest.
Sell and rent and hire and barter—
Surely you can do the rest.

LEGAL NOTICES.

NOTICE TO THE OWNERS OF PROPERTY TO BE ASSESSED IN PAVING DISTRICT NUMBER TWO IN THE CITY OF COLORADO SPRINGS, COLORADO.

Office of the City Clerk of Colorado Springs, Colorado, June 19, 1906.

NOTICE IS HEREBY GIVEN to the owners of all the lots and parcels of land to their full depth abutting on each side of Cascade avenue between the north line of Del Norte Street and the south line of Madison street, and to the owners of all lots and parcels of land upon the intersecting streets within one-half block in each direction from each intersection of the streets intersecting said Cascade Avenue between said north line of Del Norte Street and the south line of Madison Street in the City of Colorado Springs, being Paving District Number Two in the City of Colorado Springs, Colorado, that in and by a resolution heretofore adopted by the City Council of the City of Colorado Springs, State of Colorado, pursuant to a petition therefor subscribed by the owners of a majority of the frontage proposed to be assessed for such improvements in said District, the grading, paving, curbing and guttering of said Cascade Avenue in and for said Paving District Number Two, has been proposed. Said improvement of said Cascade Avenue in said District is proposed to be by grading the same according to the official grade, by curbing and guttering with cement and paving the district with gravel suitable for the purpose, the wearing surface to be six inches thick and laid on a foundation of well-rolled earth; said improvements are also to include a park space thirty-four feet wide in the center of said avenue between the said limits, and such water conduits and other incidentals as are prescribed in the specifications for said improvements, all of which more particularly, specifically and at length appear by reference to the details and specifications for said improvements hereinafter mentioned.

That the said City Council of the City of Colorado Springs heretofore caused the City Engineer to make and prepare full details and specifications for said improvements, pursuant to the petition thereto presented by the property owners and caused the City Engineer to make an estimate of the cost of such improvements, together with a map of said District and a schedule showing the approximate amounts to be assessed upon each piece of property and each lot or parcel of property in said District.

That said estimate shows a total probable cost of Twenty-Three Thousand Two Hundred Dollars ($23,200.00) for said improvements, and said schedule shows that the approximate amount to be assessed for said improvements is the sum of Five Dollars and Thirty-Two cents ($5.32) for each front foot on Cascade Avenue and at the rate of Fifty-Six Dollars ($56.00) for each one hundred and ninety feet of frontage on the intersecting streets.

That the cost of said improvements, if authorized and constructed, will be due and payable within thirty days of the publication of the assessing ordinance, or at the election of the owners of the property assessed, may be payable in ten equal annual installments of principal. The first of which installments shall be due and payable in one year from the next succeeding date after the passage of the assessing ordinance when by the laws of the State general taxes, or the first installment thereof, are payable; and the nine remaining installments, successively, on the same date of each of the nine succeeding years thereafter, with interest meantime on all unpaid installments payable annually in advance on the same date, at the rate of six per cent (6 per cent) per annum.

That said District is situated in the City of Colorado Springs, and is bounded and described as follows, to-wit: North Cascade Avenue between the north line of Del Norte Street and the south line of Madison Street and the intersecting streets within one-half block in each direction from each intersection of the streets intersecting said Cascade Avenue between the north line of Del Norte Street and the south line of Madison Street, in the City of Colorado Springs, Colorado. And as the same may hereafter be approved by ordinance, is to be known as Paving District Number Two in the City of Colorado Springs, Colorado.

That on the 23rd day of July, A. D. 1906, at the hour of eight o'clock p. m., a resolution or ordinance ordering said improvements in accordance with said details, specifications, estimate, map and schedule, will be finally considered by said City Council.

That said details, specifications, map, estimate and schedule showing the amounts to be assessed, as aforesaid, and all resolutions and proceedings in the premises are on file and can be seen and examined by any person interested at the office of the undersigned in the City of Colorado Springs, Colorado, aforesaid, within said period prior to July 23rd, 1906.

All complaints and objections that may be made in writing concerning said proposed improvements, by the owner or owners of any real estate to be assessed therefor, will be heard and determined by the City Council of said City of Colorado Springs before final action of said City Council thereon.

K. M. MACMILLAN,
City Clerk of the City of Colorado Springs, Colo.

LEGAL NOTICES.

NOTICE OF ANNUAL STOCKHOLDERS' MEETING

Colorado Springs, Colo., June [illegible] 1906.

To the Stockholders of The Elkton Consolidated Mining and Milling Company:

You are hereby notified that the annual meeting of the stockholders of The Elkton Consolidated Mining and Milling Company will be held at the office of the company, Room No. 302 Mining Exchange Building, Colorado Springs, Colorado, on Monday, July 9, 1906, at [illegible] o'clock p. m., for the election of directors for the ensuing year and for the transaction of such other business as may properly come before such meeting.

The books for the transfer of stock will be closed Saturday, June 30, 1906, at 12 o'clock noon and will reopen at 10 o'clock a. m. on the day following final adjournment of said meeting. Very respectfully yours,
J. W. GRAHAM, President.
E. P. SHOVE, Secretary.
SHERWOOD ALDRICH, Chairman Executive Committee.

THE WORK MINING AND MILLING COMPANY.

DIVIDEND No. [illegible]

Notice is hereby given that a dividend of one cent per share has been declared upon all of the outstanding stock of the Work Mining & Milling Company, payable July 10th, 1906. Transfer books close July 5th, 1906, at 12 p. m. and reopen July [illegible] 1906.

By order of the Board of Directors.
F. M. McMAHON, Secretary.
The Colorado Title & Trust Co., Colorado Springs, Colo., Transfer Agent.

NOTICE OF SALE OF BONDS

Notice is hereby given that the board of directors of the Otero Irrigation district has declared its intention to sell the entire issue of one hundred and sixty thousand dollars of bonds of said district and that sealed proposals will be received by the board at their office in La Junta, Colorado, for the purchase of said bonds, on [illegible] Monday, the [illegible] day of July, 1906, at 10 o'clock a. m.

The said bonds run from eleven years to twenty years, and draw interest at the rate of six per cent per annum, payable semi-annually, have been duly authorized by vote of said district, in accordance with the laws relating to irrigation districts, and all the real property of said district is liable to assessment for the payment of both interest and principal of said bonds.

The board reserves the right to reject all bids.

All bids should be addressed to the undersigned.
GEO. A. KILGORE.
Secretary of the Otero Irrigation District, La Junta, Otero Co., Colorado.

To the Stockholders of the United States Sugar and Land Company:

You are hereby notified that a special meeting of the stockholders of THE UNITED STATES SUGAR AND LAND COMPANY will be held at the office of said company, Suite No. 301, Mining Exchange Building, in the City of Colorado Springs, Colorado, on the second day of July, 1906, at 10 o'clock in the forenoon, to consider and take action upon a proposition to amend the Certificate of Incorporation of said company, which has been declared advisable by its board of directors, increasing the capital stock of said company from the present authorized amount of $1,250,000 in preferred stock and $1,250,000 in common stock to an authorized capital of $2,500,000 in preferred stock and $2,500,000 in common stock, the said increased preferred stock to have the same preference as the present preferred stock of the company; and also to consider the authorization of the issue of said stock by the board of directors in such manner and for such purpose or purposes as it may determine.

The stock transfer books of the company will be closed at 12 o'clock noon on the 15th day of June, 1906, and will remain closed until the day following the final adjournment of said meeting. By order of the board.
O. H. SHOUP,
Secretary.

Dated at Colorado Springs, Colo., May 28th, 1906.

AN ORDINANCE.

Colorado Springs, Colo., June 13, 1906.

The following form of Ordinance was introduced and read at a regular meeting of the City Council, held June 4, 1906, and was amended and read as amended at an adjourned meeting held on June 12, 1906, and ordered published.
K. M. MACMILLAN,
City Clerk.

AN ORDINANCE GRANTING RIGHT OF WAY OVER, ALONG AND ACROSS CERTAIN STREETS, AVENUES AND PUBLIC PLACES IN AND BELONGING TO THE CITY OF COLORADO SPRINGS TO THE COLORADO SPRINGS AND INTERURBAN RAILWAY COMPANY, ITS SUCCESSORS AND ASSIGNS, AND AUTHORIZING THE CONSTRUCTION AND OPERATION OF A RAILWAY THEREON.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF COLORADO SPRINGS:

Section I. That The Colorado Springs and Interurban Railway Company, a corporation organized and existing under and by virtue of the laws of the State of Colorado (hereinafter referred to as the Railway Company), be, and it hereby is, granted, until March 6, A. D. 1926, the right, privilege and license to erect, construct and operate by motive power other than steam locomotives or animal power, and to maintain a single or double track railway with all the necessary and convenient turnouts and switches in, upon, along and across the streets, avenues and public places in the City of Colorado Springs hereinafter mentioned.

Section II. That the said Railway Company, having heretofore procured and filed with the City Clerk the written consent of the owners of the land representing more than one-half of the frontage on those parts of the streets and avenues along which it proposes to construct, operate and maintain its line of railway as hereinafter mentioned, be, and it hereby is, authorized to lay down its tracks for such railway in, upon, along and across the following streets, avenues and public places or parts thereof, namely:

Beginning at the intersection of Kiowa Street with Wahsatch Avenue, thence east on Kiowa Street to Institute Street; thence north on Institute Street to Platte Avenue;

Also beginning at the intersection of Boulder Street and Institute Street, thence east on Boulder Street to the east City limits of said City.

Section III. That the said railway may be used for the transportation of passengers and their ordinary hand baggage, and the operation of passenger cars and transportation of passengers of and from other lines of street railway; also between the hours of 11:00 p. m. and 6:00 a. m. for the transportation of coal, at a speed of not more than eight (8) miles per hour; the track of said railway to be kept free and clear from coal scattered by the cars of said railway.

Section IV. That no track of such railway shall be elevated above the surface of any street, but whenever the City Council [illegible] all tracks [illegible] to conform to the established grades of the streets of said City. The City Engineer shall establish the grades for the Railway Company before the construction of such railway, and such tracks shall be of such character and shall be laid in such manner as to form no unnecessary impediment to the ordinary use of the streets for the passage of wagons and other vehicles upon, along and across the same from any point, and in any and all directions. Said tracks shall also be laid with suitable bridges or culverts at all gutters so as to permit the free and unobstructed flow of water in and along said gutters.

Section V. That all tracks of said railway shall be of standard gauge, and when a single track only is laid in any street, it shall be laid in the center of the street in all cases where practicable. Where a double track is laid or contemplated in any street, each of said tracks shall be laid at such distance from the center of said street as will make the center point between the two tracks, the center of the street, and no farther apart than required for the convenient passage of cars. In no event shall such tracks take up more than eighteen and one-tenth (18.1) feet in width of said streets.

No track shall be laid within ten (10) feet of the sidewalk upon any street, except as hereinafter provided. All turnouts shall be constructed between cross streets.

Section VI. The said Railway Company shall keep those portions of the street lying between the rails of each of its tracks and for a space of two feet on the outside of each rail in good repair, and shall plank or pave between the two tracks and two (2) feet in width outside of all tracks laid in crossing such streets or avenues as the City Council may direct, and shall also pave between all tracks and for a distance of two (2) feet on the outside of each rail laid on any street in this city whenever the city shall pave the remaining width of said street, all work to be done in conformity with the paving laid by the City.

Section VII. That the cars or carriages of said Railway Company shall be run along and upon its tracks in conformity with the following rules and regulations:

(1) No car shall be drawn or operated at a greater rate of speed than eight (8) miles per hour inside of the fire limits, and sixteen (16) miles per hour outside of said limits.

(2) No car shall be allowed to stop on a cross walk or in front of any intersecting street, except to avoid collision or injury to persons or take on or let off passengers.

(3) All proper care shall be used by conductors and drivers to prevent injury to persons and to wagons and other vehicles.

(4) All cars shall be provided with proper signal lights, and signs designating destination.

Section VIII. That the cars of the said Railway Company shall at all times be entitled to the tracks, and in all cases wherein any wagon or other vehicle shall meet or be overtaken by a car, in said City, such team or other vehicle shall give place to such car. No person shall wilfully or maliciously obstruct, hinder or interfere with any car by placing, driving, stopping or causing to be placed, driven at a slow pace or stopped, any wagon or other vehicle or any obstacle whatsoever in, upon, across, along or near any track of said Railway Company in said City, after being notified by the conductor or driver of said car by the ringing of the car bell or otherwise to cease such obstruction or hindrance; and whomsoever shall wilfully violate any of the provisions of this section of this ordinance shall, upon conviction thereof before any Police Magistrate in said City of Colorado Springs, be fined any sum not less than five dollars ($5.00) nor more than twenty-five dollars ($25.00) for each and every such offense; provided that this section shall not apply to the laying of hose and movement of fire apparatus in case of fire or funeral processions crossing the said tracks.

Section IX. That the said Railway Company shall commence the construction of its railway within six (6) months from the date of the passage of this ordinance, and shall diligently prosecute the work to completion according to the terms of this ordinance, it being understood that thirty (30) months' time is granted for the completion of all lines authorized hereunder.

Section X. That the right of way across the right of way hereby granted, under the said tracks, for pipes, mains and conduits for water, gas and sewerage and wires, is reserved to the City of Colorado Springs.

Section XI. The right is hereby given and granted to said Railway Company to erect wood or iron poles on both sides of the streets, avenues or alleys, and to place wires thereon to conduct and utilize electrical power; the said poles shall be securely placed and planted in the earth at the outer edge of the sidewalk and on the produced lines of lots wherever practicable, and shall not be less than twenty (20) feet in height. All wooden poles shall be peeled and painted, and right is reserved for the city fire alarm and city telephone wires on all poles.

Section XII. That the said Railway Company shall never charge more than five (5) cents for one passage for each person riding on its cars on the line of railway constructed hereunder, and it shall sell tickets, each of which shall entitle the holder to one passage as aforesaid, as follows: Twenty-two (22) tickets for One Dollar ($1); provided that children under ten (10) years of age may ride at one-half fare for each passenger by tendering a one-half fare ticket. Children under five (5) years of age, when in charge of anyone paying full fare, shall be entitled to ride free.

Section XIII. That the said Railway Company shall issue, without charge, to each passenger on its car on said line, who has paid his full fare, and upon his request, a transfer check which shall be valid for thirty (30) minutes from the time of issuance and entitle said passenger to use the same as one fare upon any other connecting or intersecting line operated by the said Railway Company, for the continuation of his passage from the point of connection or intersection with such other line to a point in said City further remote from his point of starting, provided his said other passage be not continued upon a line or lines paralleling the line issuing said transfer.

Section XIV. The rights and privileges hereby granted the said Railway Company are granted subject to all ordinances and police regulations of the City of Colorado Springs now in force or which may hereafter be adopted.

Section XV. The rights and privileges hereby granted on any street or avenue, or any part thereof, shall be held to be terminated and cancelled if the said Railway Company shall fail within thirty (30) months from the date hereof to construct and operate the railway upon such streets or avenues or parts thereof.

Section XVI. That the Railway Company shall give its bond in the penal sum of Ten Thousand Dollars ($10,000) to the City of Colorado Springs, conditioned for the payment to all persons, corporations, associations, and the City of Colorado Springs, of any damages sustained by them or any of them, or by the City of Colorado Springs, and for which the said Railway Company may be in law bound and held by reason of any acts of omission or commission or of negligence on its part, said bond to be approved by the City Council.

Section XVII. All franchises, rights, licenses and privileges hereby granted and all terms, conditions, restrictions and agreements herein contained, are granted to, shall be exercised and enjoyed by, and be binding and enforcible by and against, the successors and assigns of said Railway Company.

Section XVIII. This ordinance [illegible] in force after its [illegible] and passage [illegible]

C E RALLY—The City Christian Endeavor union will meet in a field day social at the First Congregational church tonight. The social will take the form of a reception to the Rev William T McElveen of Boston.

BOUND OVER—Henry Adams and Lee Rowe arrested in this city a week ago and charged with buncoing R P Graham out of $376 by a matching dollars' game in Pueblo had a preliminary hearing in Pueblo Saturday and were bound over to the district court under bonds of $500. Florence Monroe who was arrested here with the two men and charged with being an accessory to the steal was dismissed.

PERSONAL MENTION.

Mr. and Mrs. J R Finlay and son left last Monday for a short visit in Boston.

Edward Hoffman captain of police returned yesterday from Kansas where he was called by the serious illness of his mother. Mrs Hoffman is recovering from her illness.

June 23 1906

To Whom It May Concern —

The undersigned has resumed possession of all property formerly known as the Clark greenhouses nurseries floral business, etc., in or near the city of Colorado Springs, but recently operated and conducted by J E Braidwood. The same will hereafter be under my possession and management.

W M CLARK

DIAMOND RING TO BE GIVEN AWAY

Arington's Comedians have a novel way of advertising their business. This week they are going to give away a genuine diamond ring. Every one purchasing a ticket to any of their performances this week will receive a ticket entitling them to a chance in the drawing which will take place next Saturday night at the Opera house. They also give three souvenir matinees each week Tuesday Thursday and Saturday. The following plays will be presented this week: Tonight, tomorrow afternoon and evening they will present one of their best plays, The Mountain Pink. Wednesday night, Thursday matinee and night will be seen the well known drama The Phoenix. On Friday night, Saturday matinee and night they present the sensational drama The Golden Giant Mine. The plays will all be well staged under the direction of W W Craig. Refined specialties will be introduced between all acts. Reserved seats are on sale during the day at the box office.
